DLA AVIATION NOTE TO 52.211-9000 GOVERNMENT SURPLUS MATERIAL
(JUL 2002)

For electronic quotes, if the information requested by Clause 52.211-9000 (Section I) cannot be submitted with your offer, it must be submitted off-line to the contracting officer prior to the solicitation closing date.

Awards citing origin inspection that authorize the furnishing of surplus material will contain a Quality Assurance Provision (QAP) S01 in lieu of the QAP (if any) specified in this solicitation. If destination inspection will apply to the award, the QAP cited in the purchase order text will apply.

A copy of surplus QAP S01 is available on the DLA Aviation Acquisition Reference List, Section 2 <http://www.aviation.dla.mil/userweb/dscrbat/qaps.htm>

11-20A-9G DLA AVIATION NOTE TO 52.211-9000 GOVERNMENT SURPLUS MATERIAL  
(JUL 2002)

SURPLUS MATERIAL IS ACCEPTABLE. Clause 52.211-9000 (Section I) restates information provided by the successful offeror in its offer.

If origin inspection is cited for this award, Quality Assurance Provision (QAP) S01 and any supplemental requirements as specified in the award apply.

If destination inspection is cited for this award, QAP S01 does not apply. Applicable QAP, if any, will be as cited in the PID.

A copy of surplus QAP S01 is available on the DLA Aviation Acquisition Reference List, Section 2 <http://www.aviation.dla.mil/userweb/dscrbat/qaps.htm>

13-1A-9G NOTIFICATION OF REJECTION OF UNILATERAL AWARD
(MAR 2001)

Unless this is a bilateral award, notice of rejection as described herein is required. The Government's offer to purchase, as evidenced by this order, is made on the basis of your quotation. Although you are not legally obligated to perform on a unilateral purchase order, you should promptly notify the DLA Aviation contract administrator in writing if you do not intend to perform this order by the specified delivery date. Prompt notification means as soon after receiving notice of award as practicable given the circumstances.

FAILURE TO PROVIDE PROMPT NOTICE WILL ADVERSELY AFFECT YOUR PAST PERFORMANCE AUTOMATED BEST VALUE SYSTEM

SCORE IF THIS ORDER IS LATER CANCELLED AT OTHER THAN THE GOVERNMENT'S REQUEST.
~~~~~

52.211-9G73        PACKAGING AND MARKING AND REQUIREMENTS (MAR 2004)

(a) Unless stated otherwise, commercial packaging in accordance with ASTM-D-3951 is required for CONUS shipments from the contractor directly to the customer. Commercial packaging and marking is not sufficient for vendor shipments requiring movement through the Defense Transportation System (also referred to as the Military Distribution System or DLA Depot) as the shipment could ultimately be moved via Military Air.

(b) Higher level packaging in accordance with MIL-STD-2073 is mandatory for all shipments that meet the below criteria:

- Movement through the Defense Transportation System including shipments to a Military Distribution facility or depot.
- OCONUS shipments
- FMS shipments
- Hazardous material, as cited in the AID or in the Quality Requirements Matrix.

(c) Materials not considered as HAZMAT for CONUS or OCONUS commercial air shipments may be considered HAZMAT for MILAIR shipments OCONUS. As such, contractors/shippers shall ensure that material meeting HAZMAT definitions in DLAI 4145.3, Preparing Hazardous Materials for Military Air Shipment, is packaged in accordance with that instruction when the consignee is OCONUS and the shipment will be moved through the Defense Transportation System.

(d) All items shall be marked in accordance with MIL-STD-129P. Hazardous items and shelf life items, as cited in the AID or in the Quality Requirements Matrix, shall be marked in accordance with MIL-STD-129P and the appropriate clauses cited in the appendix to the matrix and the contract. The contractor is required to package material in accordance with Quantity Unit Pack (QUP), specified in MIL-STD-2073 and the Unit of Issue (UI), specified in each delivery order. A packing slip shall be located in a plastic pouch on the outside of the package. For HAZMAT destined OCONUS, a hard copy of the Material Safety Data Sheet (MSDS) must also be included.

(e) In the event of deployments, this clause may be invoked when shipments originally destined for a CONUS location are diverted to OCONUS destinations thereby necessitating movement of the material through the Defense Transportation System. In such an event, contractors will be notified by the Contracting Officer and an equitable adjustment will be made in the contract price as deemed appropriate.

NOTE: Applicable to negotiated solicitations. Offers that do not comply with the packaging and marking requirements as specified in Section D of this solicitation may be subject to rejection as being technically unacceptable.

52.211-9G22 DLA AVIATION PALLETIZATION FOR MIL-STD-2073 IN ACCORDANCE WITH MD00100452 REVISION B (JUL 2008)

- (a) Palletization.
- (1) When the total number of containers going to the same destination is 250 pounds or greater (excluding pallet) or a volume of 20 cubic feet or greater, then palletization IAW MIL-STD-147 is required.
 - (2) When the total number of containers going to the same destination is less than 250 pounds (excluding pallet) and is less than 20 cubic feet, then palletization is not required IAW MIL-STD-147.

CONTINUATION SHEET	REFERENCE NO. OF DOCUMENT BEING CONTINUED: SPE4A6-15-Q-0736	PAGE 4 OF 32 PAGES
--------------------	--	--------------------

(3) Except as otherwise provided in this clause, shipping containers shall be palletized IAW the guidance cited in MIL-STD-147. Special palletization instructions may be further specified under other preparation for delivery instructions in this order/contract. In the case of any inconsistency between such special palletization instructions in the requirements cited in this clause, the special palletization instructions shall take precedence.

(4) Pallets required for use, shall comply with ANSI/MH1, Part No. MH1/9-02SW4048. This part number shall be used for Level A packaging when the total weight is less than 1500 lbs. evenly distributed. This part number shall be used for Level B packaging when the total weight is greater than 1500 lbs., but less than 3000 lbs. evenly distributed.

NOTEUse of nonstandard commercial pallets is forbidden unless cited in the contract/purchase order.

(i) The following commercial heat treatment process has been approved by the American Lumber Standards Committee (ALSC) and is required for all Non-Manufactured Wood Packaging Material (NMWPM) entering a European country or destined for a Container Consolidation Point (CCP) or an aerial or water port of embarkation: All wooden pallets and wood containers produced entirely or in part of non-manufactured softwood species shall be constructed from Heat Treated (HT to 56 degrees Centigrade for 30 minutes) coniferous material and certified accordingly by an accredited agency recognized by the American Lumber Standards Committee (ALSC) in accordance with Non-manufactured Wood Packing Policy and Non-manufactured Wood Packing Enforcement Regulations both dated May 30, 2001. All wooden pallets and containers produced entirely of non-manufactured hardwood species shall be identified by a permanent marking of "NC," 1.25 inches or greater in height, accompanied by the CAGE code of the contracted manufacturer and the month and year of the contract. On pallets, the marking shall be applied to the stringer or block on opposite sides and ends of the pallet and be contrasting and clearly visible. On containers, the marking shall be applied on a side other than the top or bottom, contrasting and clearly visible.

(ii) Oak and chestnut wood shall be bark free and square edged so that none of the natural rounded surface tissues remain, or be bark free and have a moisture content no greater than 20%. The contractor is responsible for performing an inspection of each shipment to assure compliance with this requirement.

(5) Unless otherwise specified in the contract or purchase order hazardous material containers, except cylinders and 55 gallon drums (see paragraph 5(i) thru (iv), shall be palletized IAW Load Type VI of MIL-STD-147. Pallets used shall be as cited above. "Hazardous Material" for the purpose of this clause, means any material considered hazardous under the Department of Transportation Hazardous Material Regulations, 49 CFR 171-79, IATA, IACO, IMDG, unless otherwise specified.

NOTE Shrink wrap is not authorized for use with Hazardous Materials.

- (i) 55 gallon drums for domestic delivery shall be palletized 3 per pallet IAW with load type 3a bonding method G (stretch wrap) or 4 per pallet IAW load type VI of MIL-STD-147 (placing an inverted wood cap under and over the load secured by metal strapping).
- (ii) 55 gallon drums for export delivery shall be palletized 4 per pallet IAW load type VI of MIL-STD-147 (placing an inverted wood cap under and over the load secured by metal strapping).
- (iii) Cylinders for domestic delivery shall be

palletized vertically IAW load type IX of MIL-STD-147 or horizontally using metal strapping IAW MIL-STD-147 bonding method D (figure 36) and notched wood spacers (storage aid #25, figure 50) to assure the stability of the load.

(iv) Cylinders for export delivery shall be Palletized (vertically) IAW load type IX of MIL-STD-147.

(6) The use of stretch-wrap, shrink film or nonmetallic strapping for bonding is not authorized for "Export Shipments".

(7) Stretch-wrap, when utilized, shall be accomplished mechanically with a (machine or hand held tool that based on the weight of items being palletized, maintains sufficient tension to assure secure bonding of the items to the pallet during transportation).

(8) Unless otherwise specified in the contract or Purchase Order, all polyethylene/plastic containers for domestic delivery with or without fiberboard over pack shall be palletized IAW load type 3a bonding method G (stretch wrap) or IAW Load "Type VI of MIL-STD-147 to ensure stacking support during transportation and storage. All polyethylene/plastic containers for export delivery with or without fiberboard over pack shall be palletized IAW Load Type VI of MIL-STD-147.

(b) Loading: Five-gallon tight head pails shall be loaded on pallets IAW Load Type III or IIIA of MIL-STD-147, except that a triple layer or course may be used for a total not to exceed 42 pails.

(c) Unitization: Supplies that do not lend themselves to the use of MIL-STD-147 palletization due to size, weight, configuration, etc. shall be unitized by securely blocking, bracing, or anchoring the load on a skid base or commercial type pallet in a manner that assures safe delivery.

52.215-9G06 EVALUATION AND AWARD (MAY 2011)

(a) AWARD. The Government intends to evaluate proposals and, if necessary, conduct discussions with all responsible offerors within the competitive range. The award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and represents the best value to the Government. Therefore, award may be made to other than the lowest priced or the highest technically rated offer.

(b) RELATIVE IMPORTANCE AND TRADE-OFFS. The Government will base the determination of best value on a comparative assessment of the offerors' prices, past performance, and the other evaluation factors identified elsewhere in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors, when combined, are:

[ ] significantly more important than cost or price. As other evaluation factors

become more equal, the evaluated cost or price becomes more important.

☒ [X] approximately equal to cost or price; or

☐ [ ] significantly less important than cost or price. As the evaluated cost/price becomes more equal, relative importance of all other evaluation factors becomes more significant.

The final award decision may involve a trade-off among cost or price and the non-price factors. Factors that may be considered in the trade-off process include, but are not limited to:

Item criticality and weapons system application  
Current inventory status  
Historical delivery or quality problems  
Concerns over limited supply sources and industrial base  
Benefits from obtaining new sources

(c) COST OR PRICE. The Government will evaluate the offered cost or price. The Government will add any other cost or price evaluation factors identified elsewhere in this solicitation (e.g. Buy American Act or FOB Origin transportation costs) to arrive at the offeror's evaluated cost or price. The evaluated cost or price will be used in conjunction with the other non-price factors to determine the best value to the Government.

(d) PAST PERFORMANCE. Past performance includes, but is not limited to, the offeror's record of conforming to contract requirements and standards of good workmanship; adherence to contract schedules, including the administrative aspects of performance; the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the offeror's business-like concern for the customer's interest.

(i) The Automated Best Value System (ABVS) or the Past Performance Information Retrieval System - Statistical Reporting (PPIRS-SR), as applicable, will be used to evaluate quality and past performance on DLA awards (see 52.215-9022).

(ii) In addition, offerors may submit with their offer information on past and current Federal (non-DLA Aviation), State and local government and private sector contracts performed by the offeror at the proposed performance location within the last three years that are similar in nature to this acquisition. Offerors electing to submit this data must furnish at least the following information: name and address of the contracting entity; the contract number; award and completion dates; the dollar value; the contract type; the items or services provided; two references, with title and phone number; and any problems encountered and the corrective action taken by the offeror.

(iii) By submitting past performance information, the offeror agrees to permit the Government's representatives to contact the listed references and inquire of the offeror's performance. If more than three contracts are identified, the Government reserves the right to randomly select and limit its review to three contracts. In addition to the information provided, the Government may consider information obtained from other sources when evaluating the offeror's past performance. Offerors will be given the opportunity to discuss negative past performance information obtained from references if the offeror has not had a previous opportunity to comment on that information.

(iv) Offerors with no past performance history (whether internal or external to the Federal

CONTINUED ON NEXT PAGE

government) will not be evaluated favorably nor unfavorably.

(e) PAST PERFORMANCE EVALUATION FACTORS. The Government will use the past performance evaluation factors marked below in addition to cost or price and other evaluation factors specified in the solicitation. Unless indicated otherwise, past performance is significantly more important than other non-price factors. Within the past performance subfactors, ABVS scores/PPIRS assessments (as applicable) will be weighed most heavily. Historical quality history and delivery schedule compliance (not captured in ABVS/PPIRS) will be weighed more heavily than the remaining past performance subfactors. All other non-price evaluation factors specified in this solicitation weigh equally, unless otherwise indicated.

- [ ] ABVS Score/PPIRS-SR Assessments  
(52.215-9022)
- [X ] PPIRS-RC Assessments
- [ ] Historical Quality (not captured in ABVS/PPIRS)
- [ ] Historical Delivery Schedule Compliance (not captured in ABVS/PPIRS)
- [ ] ABILITYONE (52.215-9005)
- [ ] Mentoring Business Agreements (MBA)  
(52.219-9003)
- [ ] Socioeconomic Support (52.215-9003)
- [ ] Other (specify):

~~~~~

52.215-9G06 ALT I EVALUATION AND AWARD (MAY 2009)

(e) QUOTED DELIVERY. The Government will evaluate the offeror's compliance with the delivery schedule specified in the solicitation. Quoting a greater number of days delivery than requested under the solicitation will result in the quote being evaluated less favorably than a quote meeting the requested delivery schedule. There will be no evaluation preference for offered delivery which is earlier than the requested delivery schedule.

() NON-PRICE FACTORS. Quoted delivery and past performance will be evaluated equally, unless indicated otherwise below.

- () Quoted Delivery is weighed more heavily than past performance.
 - () Past Performance is weighed more heavily than quoted delivery.
- ~~~~~

52.246-9003 Measuring and Test Equipment

MEASURING AND TEST EQUIPMENT (JAN 2014)

Notwithstanding any other clause to the contrary, and/or in addition thereto, the Contractor shall ensure that the gauges and other measuring and testing equipment, used in determining whether the supplies presented to the Government for acceptance under this contract fully conform to specified technical

requirements, are calibrated in accordance with International Organization for Standardization (ISO) 10012:2003 or American National Standards Institute (ANSI)/National Conference of Standards Laboratories (NCSL) Z540.3 (R2013).

~~~~~  
52.211-9G11 COMPLIANCE WITH SPECIFICATIONS (FEB 1996)

Where items are described in the Schedule of this solicitation by detailed specifications, any reference by the offeror to brand or trade names or model numbers or to bid or offer samples not solicited by this solicitation will be assumed to mean that the item so referenced conforms to the specification or will be modified to conform to the specification, unless it is clear from the offer or the accompanying papers that the offeror intends to qualify the offer. Products delivered under any resulting contract shall conform to the specifications cited in this solicitation.

1. CONTRACTOR QUALITY SYSTEM FOR FLIGHT SAFETY CRITICAL PARTS (FSCP)

- a. Reference: ANSI/ASQ/ISO Q9001-2008, Quality Management Systems - Requirements; The contractor shall provide and maintain a quality system which adheres to the requirements of ANSI/ASQ/ISO Q9001-2008.
- b. The calibration of measuring and testing equipment shall adhere to the requirements of one of the following: ANSI/NCSL Z540.3-2006; ISO 10012:2003; or other calibration standards or systems that are equivalent to, or better, than the ANSI/NCSL/ISO standards. Records of calibration and functional adequacy of the supplier's inspection, measuring, and test equipment shall be available for evaluation by the Government.
- c. Inspection and test records shall be maintained and available for evaluation by the Government for a period of four years after final contract delivery. Inspection and test records shall indicate the nature and number of observations made, and the number and type of deficiencies found. Data included in inspection and test records shall be used for trend analysis and to assess corrective action effectiveness.
- d. Third party registration or certification of the contractor's quality system is not required; nor shall third party registration or certification be considered a substitute for Government contract quality assurance.

2. INSPECTION AND TEST

- a. The contractor shall perform or have performed all inspections and tests necessary and as governed by drawings, specifications, and standards cited elsewhere in this contract to insure total compliance to contract requirements.
- b. Sampling: Sampling for inspection and acceptance shall be in accordance with ANSI/ASQ Z1.4-2008, or an equivalent thereof. If the contractor elects to use an alternate sampling plan, it must be approved by the Government Quality Assurance Representative, and not have been previously determined to be insufficient for the Government's purpose.

SUPPLY/SERVICE: 4010-00-575-6234 CONT'D

- c. Visual/Dimensional Inspections: Inspection level shall be Level II. Any departure from a specified requirement shall be classified as a defect. Any defect shall be cause for rejection of the entire shipment quantity.
- d. End Item Tests (if applicable): Inspection level shall be Level II. Failure of any sample unit to pass any test shall be cause for rejection of the entire shipment quantity.
- e. Process Controls
  - (1) Each manufacturing or assembly process must be controlled by detailed procedures outlining each step or parameter of the process, any required tooling or equipment calibration, and any required prerequisite operator training or qualification.
  - (2) All operations shall be clearly defined and formatted in such a way as to allow the operator to verify and record the date the operation was completed. The format must also allow for recording the determination as to whether the operation was accomplished in accordance with established requirements.
  - (3) The procedures shall be reviewed and approved in writing by the contractor's engineering, manufacturing, and quality assurance departments. After approval of the procedures, no changes or alternations shall be made to any critical characteristic without written approval from the Procuring Contracting Officer (PCO).
  - (4) A copy of the processes/procedures used during manufacture of a FSCP requiring a First Article Test (FAT) shall be retained by the contractor, and made available to the Government Quality Assurance Representative (QAR) upon request. When the item or characteristic is produced by a subcontractor, the above restrictions also apply.
- f. Critical Characteristic Testing
  - (1) All critical characteristics which can be nondestructive inspected/tested shall be subjected to 100% inspection/testing.
  - (2) Critical characteristics which require destructive testing (i.e. material, heat treat) shall be tested on a sampling basis; no skip lots are allowed.
  - (3) Statistical Process Control (SPC) methods may be utilized in lieu of 100% inspection. SPC methods shall be fully documented. The SPC plan shall be presented to the Government QAR for approval prior to production.
  - (4) All inspection records shall identify characteristics inspected, the date, and the results of the inspection. The inspection records shall also identify the inspector, and documentation of any inspector qualification(s) that may be required.
  - (5) Audits of manufacturing/assembly areas shall be performed by the contractor's quality department to ensure adequate process controls are invoked and enforced as per FSCP requirements.
- g. Nonconformances
  - (1) Nonconformance of critical characteristics shall not be dispositioned "Use As Is" or "Repair." However, rework of nonconforming critical characteristics is acceptable if the part is reworked to print specifications.
  - (2) Contractors shall notify the PCO immediately of any discovered nonconformance(s) which may exist in previously delivered FSCP. Notification is required for all nonconformances on all characteristics.

Notification shall include as a minimum: a description of the suspected nonconformance, contract number, part number, and serial number(s) if applicable.

**h. Serialization**

(1) When required, serialization of a FSCP shall occur at fabrication in such a way that any operation(s) affecting the critical characteristics are cross referenced to the serial number. All serial numbers issued to the contractor shall be accounted for.

(2) The contractor shall identify the serial numbers of any defective items that are to be scrapped. The contractor shall notify the PCO of those defective item serial numbers.

(3) Under no circumstances shall the contractor use any DSCR serial numbers on a part delivered to other than the Government under a DLA Aviation contract.

**i. Traceability:** All technical/quality requirements relating to FSCPs shall be traceable to the time and place of production. Records shall provide the degree of traceability required to enable subsequent verification of all aspects of material, manufacturing, special process, assembly, and inspection of critical characteristics. Special processes include, but are not limited to: heat treatment shot peening, and nondestructive testing.

**j. Documentation**

(1) A paper copy of all FSCP traceability documents for each lot shall be included with each DD Form 250 presented to the Government QAR.

(2) Traceability documents shall be retained at the contractor's facility for at least four years past the completion of the contract. The contractor shall make these documents available to the Government upon request. At the end of this period, or in the event of contractor relocation or shutdown, all traceability documentation shall be offered to the DLA Aviation PCO prior to disposal.

**k. Measurement Equipment:** All measurement equipment used to inspect FSCPs shall be accurate to within 10% of the total tolerance spread for the feature being inspected. Exception: for total tolerance spreads of 0.001 inch or

less, measurement equipment shall be accurate to within 20% of the spread. Equipment with less accuracy may be used with specific approval in writing from the PCO.

**l. Contradictions**

(1) Contradictions between the FSCP Technical Data Package (TDP) list of critical characteristics and the Drawing/Specifications shall not be resolved by the order of precedence paragraph in the TDP.

(2) The contractor shall immediately notify the DLA Aviation Quality Assurance element through the PCO. All work pertaining to the characteristic in question shall be halted until a written resolution to the contradiction is issued to the contractor by the PCO.

**m. Manufacturer and Material Traceability**

(1) The contractor shall identify on their process/operation sheets all manufacturing sources performing processes/operations outside their facilities. The prime contractor has the responsibility of providing adequate surveillance over subcontractor controls.

(2) The inspection method sheets which list the characteristics of each

item produced under this contract shall have positive traceability to the raw material, casting, or forging.  
n. Examination of Preparation for Delivery: The inspection level shall be S-2. An examination of preservation, packaging, packing, and marking shall be performed to determine compliance with contract requirements. Any noncompliance with contractual requirements shall be cause for rejection of the entire shipment quantity.  
o. Any defective item discovered by the Government after shipment may be cause for rejection of the entire contract quantity.

**252.211-7006 RADIO FREQUENCY IDENTIFICATION (SEP 2011) DFARS**

\*\*\*\*

(b)(1) Except as provided in paragraph (b)(2) of this clause, the Contractor shall affix passive RFID tags, at the case- and palletized-unit-load packaging levels, for shipments of items that—

(i) Are in any of the following classes of supply, as defined in DoD 4140.1-R, DoD Supply Chain Materiel Management Regulation, AP1.1.11:

(A) Subclass of Class I – Packaged operational rations.

(B) Class II – Clothing, individual equipment, tentage, organizational tool kits, hand tools, and administrative and housekeeping supplies and equipment.

(C) Class IIIP – Packaged petroleum, lubricants, oils, preservatives, chemicals, and additives.

(D) Class IV – Construction and barrier materials.

(E) Class VI – Personal demand items (non-military sales items).

(F) Subclass of Class VIII – Medical materials (excluding pharmaceuticals, biologicals, and reagents – suppliers should limit the mixing of excluded and non-excluded materials).

(G) Class IX – Repair parts and components including kits, assemblies and subassemblies, repairable and consumable items required for maintenance support of all equipment, excluding medical-peculiar repair parts; and

(ii) Are being shipped to one of the locations listed at <http://www.acq.osd.mil/log/rfid/> or to—

(A) A location outside the contiguous United States when the shipment has been assigned Transportation Priority 1, or to—

(B) The following location(s) deemed necessary by the requiring activity:

| Contract Line, Subline, or Exhibit Line Item Number | Location Name | City | State | DoDAAC |
|-----------------------------------------------------|---------------|------|-------|--------|
|                                                     |               |      |       |        |
|                                                     |               |      |       |        |
|                                                     |               |      |       |        |

(2) The following are excluded from the requirements of paragraph (b)(1) of this clause:

(i) Shipments of bulk commodities.

(ii) Shipments to locations other than Defense Distribution Depots when the contract includes the clause at FAR 52.213-1, Fast Payment Procedures.

(c) The Contractor shall—

(1) Ensure that the data encoded on each passive RFID tag are globally unique (i.e., the tag ID is never repeated across two or more RFID tags and conforms to the requirements in paragraph (d) of this clause;

(2) Use passive tags that are readable; and

(3) Ensure that the passive tag is affixed at the appropriate location on the specific level of packaging, in accordance with MIL-STD-129 (Section 4.9.2) tag placement specifications.

(d) Data syntax and standards. The Contractor shall encode an approved RFID tag using the instructions provided in the EPC™ Tag Data Standards in effect at the time of contract award. The EPC™ Tag Data Standards are available at <http://www.epcglobalinc.org/standards/>.

(1) If the Contractor is an EPCglobal™ subscriber and possesses a unique EPC™ company prefix, the Contractor may use any of the identifiers and encoding instructions described in the most recent EPC™ Tag Data Standards document to encode tags.

(2) If the Contractor chooses to employ the DoD identifier, the Contractor shall use its previously assigned Commercial and Government Entity (CAGE) code and shall encode the tags in accordance with the tag identifier details located at [http://www.acq.osd.mil/log/rfid/tag\\_data.htm](http://www.acq.osd.mil/log/rfid/tag_data.htm). If the Contractor uses a third-party packaging house to encode its tags, the CAGE code of the third-party packaging house is acceptable.

(3) Regardless of the selected encoding scheme, the Contractor with which the Department holds the contract is responsible for ensuring that the tag ID encoded on each passive RFID tag is globally unique, per the requirements in paragraph (c)(1).

(e) Advance shipment notice. The Contractor shall use Wide Area WorkFlow (WAWF), as required by DFARS [252.232-7003](#), Electronic Submission of Payment Requests, to electronically submit advance shipment notice(s) with the RFID tag ID(s) (specified in paragraph

(d) of this clause) in advance of the shipment in accordance with the procedures at <https://wawf.eb.mil/>.

## SECTION K - REPRESENTATIONS, CERTIFICATIONS AND STATEMENTS

### 52.204-08 ANNUAL REPRESENTATIONS AND CERTIFICATIONS (OCT 2014) FAR

(a)(1) The North American Industry Classification System (NAICS) code for this acquisition is [insert NAICS code].

(2) The small business size standard is 500 [insert size standard].

(3) The small business size standard for a concern which submits an offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is 500 employees.

(b)(1) If the clause at 52.204-7, System For Award Management, is included in this solicitation, paragraph (d) of this provision applies.

(2) If the provision at 52.204-7 is not included in this solicitation, and the offeror is currently registered in the System for Award Management (SAM), and has completed the Representations and Certifications section of SAM electronically, the offeror may choose to use paragraph (d) of this provision instead of completing the corresponding individual representations and certification in the solicitation. The offeror shall indicate which option applies by checking one of the following boxes:

☐ (i) Paragraph (d) applies.

☐ (ii) Paragraph (d) does not apply and the offeror has completed the individual representations and certifications in the solicitation.

(c)(1) The following representations or certification s in ORCA are applicable to this solicitation as indicated:

(i) 52.203-2, Certificate of Independent Price Determination. This provision applies to solicitations when a firm-fixed-price contract or fixed-price contract with economic price adjustment is contemplated, unless—

(A) The acquisition is to be made under the simplified acquisition procedures in Part 13;

(B) The solicitation is a request for technical proposals under two-step sealed bidding procedures; or

(C) The solicitation is for utility services for which rates are set by law or regulation.

(ii) 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions. This provision applies to solicitations expected to exceed \$150,000.

(iii) 52.204-3, Taxpayer Identification. This provision applies to solicitations that do not include the clause at 52.204-7, Central Contractor Registration.

(iv) 52.204-5, Women-Owned Business (Other Than Small Business). This provision applies to solicitations that—

(A) Are not set aside for small business concerns;

(B) Exceed the simplified acquisition threshold; and

(C) Are for contracts that will be performed in the United States or its outlying areas.

(v) 52.209-2, Prohibition on Contracting with Inverted Domestic Corporations—Representation. This provision applies to solicitations using funds appropriated in fiscal years 2008, 2009, 2010, or 2012.

(vi) 52.209-5, Certification Regarding Responsibility Matters. This provision applies to solicitations where the contract value is expected to exceed the simplified acquisition threshold.

(vii) 52.214-14, Place of Performance—Sealed Bidding. This provision applies to invitations for bids except those in which the place of performance is specified by the Government.

(viii) 52.215-6, Place of Performance. This provision applies to solicitations unless the place of performance is specified by the Government.

(ix) 52.219-1, Small Business Program Representations (Basic & Alternate I). This provision applies to solicitations when the contract will be performed in the United States or its outlying areas.

(A) The basic provision applies when the solicitations are issued by other than DoD, NASA, and the Coast Guard.

(B) The provision with its Alternate I applies to solicitations issued by DoD, NASA, or the Coast Guard.

(x) 52.219-2, Equal Low Bids. This provision applies to solicitations when contracting by sealed bidding and the contract will be performed in the United States or its outlying areas.

(xi) 52.222-22, Previous Contracts and Compliance Reports. This provision applies to solicitations that include the clause at 52.222-26, Equal Opportunity.

(xii) 52.222-25, Affirmative Action Compliance. This provision applies to solicitations, other than those for construction, when the solicitation includes the clause at 52.222-26, Equal Opportunity.

**52.207-04 ECONOMIC PURCHASE QUANTITY - SUPPLIES (AUG 1987) FAR**

(a) Offerors are invited to state an opinion on whether the quantity(ies) of supplies on which bids, proposals or quotes are requested in this solicitation is (are) economically advantageous to the Government.

(b) Each offeror who believes that acquisitions in different quantities would be more advantageous is invited to recommend an economic purchase quantity. If different quantities are recommended, a total and a unit price must be quoted for applicable items. An economic purchase quantity is that quantity at which a significant price break occurs. If there are significant price breaks at different quantity points, this information is desired as well.

**OFFEROR RECOMMENDATIONS**

(a) The product described in the Purchase Order Text (POT) or Procurement Item Description (PID) of this solicitation is that product which the Government has determined to be acceptable. All Offerors shall indicate below, or through an alternative means in an electronic quoting system, whether they are offering an "exact product," an "alternate product" (which includes a "previously reverse-engineered product"), a "superseding part number," or a "previously-approved product;" and shall furnish the data required for whichever is applicable. (To determine which type of product to indicate, offerors must refer to the criteria in subparagraphs (b) - (e) of

this provision, respectively.) Any product offered must be either a product cited in the POT or PID; or be physically, mechanically, electrically, and functionally interchangeable with a product cited in the POT or PID, including additional requirements referred to in the POT or PID, if any.

☐ **Exact Product – Applies to CLIN(s):**

☐ **Alternate/Previously Reverse-Engineered Product – Applies to CLIN(s):**

☐ **Superseding Part Number – Applies to CLIN(s):**

☐ **Previously - Approved Product – Applies to CLIN(s) :**

(b) "Exact product."

(1) "Exact product" means a product described by the name of an approved source and its corresponding part number, as currently cited in the POT or PID; modified (if necessary) to conform to any additional requirements set forth in the POT or PID; and manufactured by, or under the direction of, that approved source. If an Offeror indicates that an "exact product" is being offered, the Offeror must meet one of the descriptions in subparagraphs (i)-(iv) below.

(Any Offeror not meeting one of these descriptions is not considered to be offering "exact product;" even though the item may be manufactured in accordance with the drawings and/or specifications of an approved source currently cited in the POT or PID.) For any Offeror other than the manufacturer cited in the POT or PID, the Contracting Officer may request evidence to demonstrate technical acceptability of the supplies offered. Evidence requested will generally include information tracing the supplies back to the original equipment manufacturer or its authorized distributor. At a minimum, evidence must be sufficient to establish the identity of the product and its manufacturing source. The Contracting Officer determines the acceptability and sufficiency of documentation or other evidence, at his or her sole discretion. If an Offeror fails to provide the requested evidence/information or provides information that the Contracting Officer finds unacceptable, its offer may be rejected with out further consideration under this solicitation.

(i) An approved source currently cited in the POT or PID offering its corresponding part number as cited in the POT or PID;

(ii) A dealer/distributor offering the product of an approved source that meets the description in subparagraph (i) above;

(iii) A manufacturer who (A) produces the offered item under the direction of an approved source currently cited in the POT or PID; and (B) has authorization from that approved source to manufacture the item, identify it as that approved source's name and part number, and sell the item directly to the Government. If requested by the Contracting Officer, the Offeror must provide documentation to demonstrate such authorization, or other evidence of technical acceptability such as information that traces the supplies back to the original equipment manufacturer. Such evidence could be documentation obtained directly from the approved source or identification on a Web site maintained by the approved source confirming that the manufacturer is an acceptable source for the item identified by that approved source's name and part number. If evidence cannot be obtained directly from the approved source, this does not necessarily preclude acceptance of the offer, if the Offeror provides adequate documentation or other evidence allowing the Contracting Officer to determine the approved source has oversight of and involvement in the manufacturing process.

(iv) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (iii) above. If requested by the Contracting Officer, the Offeror/Contractor must provide documentation that demonstrates such authorization or other evidence of technical acceptability such as information that traces the supplies back to the original equipment manufacturer or its authorized distributor. Such evidence could be documentation obtained directly from the approved source or identification on a Web site maintained by the approved source confirming that the item being offered is produced by a manufacturer that is an acceptable source for the item identified by that approved source's name and part number. If evidence cannot be obtained directly from the approved source or manufacturing source, this does not necessarily preclude acceptance of the offer, if the contracting officer can adequately document that the approved source has oversight of and involvement in the manufacturing process by other means.

(2) When the POT or PID identifies the item being acquired as a critical safety item (CSI), offers of exact product will be evaluated in accordance with 52.211-9005.

(c) "Alternate product."

(1) The Offeror must indicate that an "alternate product" is being offered if the Offeror is any one of the following:

(i) An Offeror who (A) manufactures the item for an approved source currently cited in the POT or PID; and (B) does not have authorization from that approved source to manufacture the item, identify it as the approved source part number, and sell the item directly to the Government;

(ii) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (i) above;

(iii) An Offeror of a previously reverse-engineered product that is not currently cited in the POT or PID; or

(iv) Any other Offeror who does not meet the criteria in subparagraphs (b)(1), (d), or (e) of this provision.

(2) If an alternate product is offered, the Offeror shall furnish with its offer legible copies of all drawings, specifications, or other data necessary to clearly describe the characteristics and features of the alternate product being offered. Data submitted shall cover design, materials, performance, function, interchangeability, inspection and/or testing criteria, and other characteristics of the offered product. If the offered product is to be manufactured in accordance with data the Offeror has obtained from elsewhere within the Government, the Offeror shall either furnish the detailed data specified in this paragraph, or supply a description of the data package in its possession; i.e., basic data document and revision, the date the data was obtained and from whom (Government agency/activity). If the Offeror does not furnish the detailed data with its offer, the Contracting Officer will be unable to begin evaluation of the offered product until such time as the detailed data can be obtained from the Government agency/activity possessing the data. If the alternate product is a previously reverse-engineered product, the Offeror shall provide: traceability documentation to establish that the offered item

represents the item specified in the POT or PID (i.e., invoice from an approved source or submission of samples having markings of an approved source); number of samples that were examined; the process/logic used; raw data (measurements, lab reports, test results) used to prepare drawings or specifications for the offered item; any additional evidence that indicates the reverse-engineered item will function properly in the end item; and any evidence that life cycle/reliability considerations have been analyzed.

(3) In addition, the Offeror may be required to furnish data describing the "exact product" cited in the POT or PID. The data required from the Offeror depends on the level of technical data describing the exact product, if any, available to the Government. The possible levels of technical data the Government may have and the corresponding data submission requirements for Offerors are identified in subparagraphs (a)-(d) below. For the item(s) being acquired under this solicitation, the level of data in the Government's possession and the corresponding requirements for data submission are identified in the POT or PID; or, if not specified in the POT or PID, are as follows: [buyer insert (a), (b), (c), or (d), as applicable, if POT or PID does not identify]. (If the level of data in the Government's possession and Offeror requirements for data submission are not identified in either the POT or PID or in this subparagraph (c)(3), then subparagraph (a) below applies.)

(a) No data: This Agency has no data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the POT or PID, sufficient to establish that the Offeror's product is equal to the product cited in the POT or PID.

(b) Adequate proprietary (i.e., limited rights) data: This Agency possesses adequate drawings and/or specifications for the exact product as cited in the POT or PID, but such data are proprietary (i.e., limited rights) and shall be used only for evaluation purposes. The Offeror must furnish the data required in subparagraph (c)(2) of this provision, but is not required to submit data on the exact product.

(c) Inadequate data: This Agency does not have adequate data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the POT or PID, sufficient to establish that the Offeror's product is equal to the product cited in the POT or PID.

(d) Adequate catalog data: This is a commercial off-the-shelf item. Adequate catalog data are available at the contracting office to evaluate alternate offers. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish with its offer a commercially-acceptable cross reference list; or legible copies of all drawings, specifications or other data necessary to clearly describe the characteristics and features of the alternate product being offered, sufficient to establish that the Offeror's product is equal to the product cited in the POT or PID. The Offeror is not required to submit data on the exact product.

(4) Except for indefinite delivery purchase orders (IDPOs), if this solicitation is automated, the Contracting Officer will not evaluate offers of alternate product (which includes offers of previously reverse-engineered product) for the current procurement. Instead, the Offeror shall submit a request to the appropriate location below for evaluation of the alternate product's technical acceptability for future procurements of the same item. The request for evaluation shall cite the National Stock Number (NSN) of the exact product and, as identified in this provision, include the applicable level of technical data on the alternate and exact products. The level of technical data that the Government has available for use to evaluate the acceptability of an alternate product offered, and the corresponding level of technical data that must be furnished with an offer or alternate product, will be identified either in the POT or PID or in paragraph (c)(2) of the provision of 52.217-9002. If the level of data and submission requirements are not identified in either of these locations in the solicitation, then 52.217-9002(c)(3)(a) applies.

(d) "Superseding part number."

(1) The Offeror must indicate that a "superseding part number" is being offered if the offered item otherwise qualifies as an "exact product," except that the part number cited in the POT or PID has been superseded. The Offeror may be requested to furnish data, or provide confirmation through some other means, sufficient to establish that there are no changes in the configuration of the part. However, if such data are unavailable, the Offeror may be required to furnish technical data as required in paragraph (c) for "alternate products." (If such data indicate there have been changes in the configuration of the part, the offered item must be identified as an "alternate product.")

(2) For solicitation numbers beginning with SPE or SPM, any data to be furnished with an offer of a "superseding part number" should be mailed to the buyer at the procuring activity address on the solicitation. (Uploading the information with the quotation, or including it in the "Remarks" section, will make the offer a "bid with exception," causing it not to be evaluated.)

(e) "Previously-approved product."

(1) If the product offered has previously been furnished to the Government or otherwise previously evaluated and approved, the Offeror shall indicate in the space provided below, or through an alternative means in an electronic quoting system, the contract and/or solicitation number under which the product was furnished or approved.

**CLIN NR (s) \_\_\_\_\_ have been previously furnished or evaluated and approved under contract/solicitation number \_\_\_\_\_.**

(2) If the product was furnished or evaluated and approved by a contracting activity different from the one issuing this solicitation, Offerors are advised that the Contracting Officer may not have access to records of another activity or other information sufficient to reasonably determine the offered product's acceptability. Therefore, in order to ensure that adequate data is available for evaluation, Offerors may elect to furnish with their offer the information requested by subparagraph (b) or (c) of this provision, whichever is applicable for the offered product. Offerors are advised that if the additional data is not furnished, the Government may not be able to evaluate the offer. (For solicitation numbers beginning with SPE, the information should be mailed to the buyer at the procuring activity address on the solicitation. Uploading the information with the quotation, or including it in the "Remarks" section, will make the offer a "bid with exception," causing it not to be evaluated.)

(f) For all types of offers ("exact product," "alternate product," "superseding part number," or "previously-approved product"), Offerors shall provide the Contractor and Government Entity (CAGE) Code of the manufacturer and the part number being offered for each item in the solicitation.

(g) Failure to furnish adequate data and/or information as prescribed in subparagraph (b), (c), (d) or (e) of this provision (when required for the current procurement) within 10 business days or less, or as otherwise required by the Contracting Officer or elsewhere in this solicitation, may preclude consideration of the offer. For automated procurements, it is the responsibility of the Offeror when offering a "superseding part number" or a "previously-approved part number" to ensure that supporting documentation arrives at the contracting activity within 2 business days after the data is requested, or the offer may not be considered. The Agency will make every effort to determine, prior to award, the acceptability of the products offered which meet the following dollar savings threshold shown below, which have a reasonable chance to receive an award; generally, the Agency will not evaluate alternate offers not meeting the dollar threshold. The savings potential is based on the cost of evaluation, and is (\$200.00 if only a local technical evaluation is involved, plus an additional \$1,500.00 for each required Engineering Support Activity evaluation). If the time before proposed award does not permit evaluation and delay of award would adversely affect the Government, alternate offers will not be considered for the current procurement. Instead, they will be evaluated for technical acceptability for future procurements of the same item, if adequate data is submitted, as stipulated above. When an alternate offer will not be considered for the current procurement, the Contracting Officer may request that the Offeror, at its discretion, provide a sample product for testing and evaluation in addition to the data required in this provision. Although not mandatory, Offerors are encouraged to provide the sample. This may facilitate the post-award evaluation and, if the alternate product is approved, increase the likelihood of its being added to the POT or PID in time for the next acquisition of the item. The Offeror shall not submit a sample product until requested to do so. The testing of the sample product will be done at a testing facility; therefore, the shipping instructions will be provided with the request. Unless otherwise specified in the solicitation, samples shall be submitted at no expense to the Government, may be damaged or destroyed during testing without liability from the Government to the submitter, and consequently may not be returned to the offeror; samples that are not damaged or destroyed will be returned only at the Offeror's request and expense. For alternate offers not evaluated, the Offeror's complete technical data package will be returned.

(h) If Offerors desire to restrict the Government's use of data submitted for evaluation, the data must bear the appropriate legends as prescribed by FAR 52.215-1(e). In the event an award is made to an Offeror submitting data without the appropriate legend, the Government will have unlimited rights to its use as defined in DFARS 252.227-7013.

(i) It is the Government that determines if the documentation or other evidence furnished by an Offeror is adequate to satisfy the requirements in this provision. The Contracting Officer may at any time, pre-award or post-award, request evidence of the technical
