DLA AVIATION NOTE TO 52.211-9000 GOVERNMENT SURPLUS MATERIAL (JUL 2002)

For electronic quotes, if the information requested by Clause 52.211-9000 (Section I) cannot be submitted with your offer, it must be submitted off-line to the contracting officer prior to the solicitation closing date.

Awards citing origin inspection that authorize the furnishing of surplus material will contain a Quality Assurance Provision (QAP) S01 in lieu of the QAP (if any) specified in this solicitation. If destination inspection will apply to the award, the QAP cited in the purchase order text will apply.

A copy of surplus QAP S01 is available on the DLA Aviation Acquisition Reference List, Section 2 <http://www.aviation.dla.mil/userweb/dscrbat/qaps.htm>

~~~~~  
PACKAGING AND MARKING AND REQUIREMENTS (MAR 2004)

(a) Unless stated otherwise, commercial packaging in accordance with ASTM-D-3951 is required for CONUS shipments from the contractor directly to the customer. Commercial packaging and marking is not sufficient for vendor shipments requiring movement through the Defense Transportation System (also referred to as the Military Distribution System or DLA Depot) as the shipment could ultimately be moved via Military Air.

(b) Higher level packaging in accordance with MIL-STD-2073 is mandatory for all shipments that meet the below criteria:

- Movement through the Defense Transportation System including shipments to a Military Distribution facility or depot.
- OCONUS shipments
- FMS shipments
- Hazardous material, as cited in the AID or in the Quality Requirements Matrix.

(c) Materials not considered as HAZMAT for CONUS or OCONUS commercial air shipments may be considered HAZMAT for MILAIR shipments OCONUS. As such, contractors/shippers shall ensure that material meeting HAZMAT definitions in DLA 4145.3, Preparing Hazardous Materials for Military Air Shipment, is packaged in accordance with that instruction when the consignee is OCONUS and the shipment will be moved through the Defense Transportation System.

(d) All items shall be marked in accordance with MIL-STD-129P. Hazardous items and shelf life items, as cited in the AID or in the Quality Requirements Matrix, shall be marked in accordance with MIL-STD-129P and the appropriate clauses cited in the appendix to the matrix and the contract. The contractor is required to package material in accordance with Quantity Unit Pack (QUP), specified in MIL-STD-2073 and the Unit of Issue (UI), specified in each delivery order. A packing slip shall be located in a plastic pouch on the outside of the package. For HAZMAT destined OCONUS, a hard copy of the Material Safety Data Sheet (MSDS) must also be included.

(e) In the event of deployments, this clause may be invoked when shipments originally destined for a CONUS location are diverted to OCONUS destinations thereby necessitating movement of the material through the Defense Transportation System. In such an event, contractors will be notified by the Contracting Officer and an equitable adjustment will be made in the contract price as deemed appropriate.

NOTE: Applicable to negotiated solicitations. Offers that do not comply with the packaging and marking requirements as specified in Section D of this solicitation may be subject to rejection as being technically unacceptable.

EVALUATION AND AWARD (JULY 2012)

(a) AWARD. The Government intends to evaluate proposals and, if necessary, conduct discussions with all responsible offerors within the competitive range. The award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and represents the best value to the Government. Therefore, award may be made to other than the lowest priced or the highest technically rated offer.

(b) RELATIVE IMPORTANCE AND TRADE-OFFS. The Government will base the determination of best value on a comparative assessment of the offerors' prices, past performance, and the other evaluation factors identified elsewhere in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors, when combined, are:

- ☐ significantly more important than cost or price. As other evaluation factors become more equal, the evaluated cost or price becomes more important.
- ☒ approximately equal to cost or price; or
- ☐ significantly less important than cost or price. As the evaluated cost/price becomes more equal, relative importance of all other evaluation factors becomes more significant.

The final award decision may involve a trade-off among cost or price and the non-price factors. Factors that may be considered in the trade-off process include, but are not limited to:

- Item criticality and weapons system application
- Current inventory status
- Historical delivery or quality problems
- Concerns over limited supply sources and industrial base
- Benefits from obtaining new sources

(c) COST OR PRICE. The Government will evaluate the offered cost or price. The Government will add any other cost or price evaluation factors identified elsewhere in this solicitation (e.g. Buy American Act or FOB Origin transportation costs) to arrive at the offeror's evaluated cost or price. The evaluated cost or price will be used in conjunction with the other non-price factors to determine the best value to the Government.

(d) PAST PERFORMANCE. Past performance includes, but is not limited to, the offeror's record of conforming to contract requirements and standards of good workmanship; adherence to contract schedules, including the administrative aspects of performance; the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the offeror's business-like concern for the customer's

interest.

(i) The Automated Best Value System (ABVS) or the Past Performance Information Retrieval System - Statistical Reporting (PPIRS-SR), as applicable, will be used to evaluate quality and past performance on DLA awards (see 52.215-9022).

(ii) In addition, offerors may submit with their offer information on past and current Federal (non-DLA Aviation), State and local government and private sector contracts performed by the offeror at the proposed performance location within the last three years that are similar in nature to this acquisition. Offerors electing to submit this data must furnish at least the following information: name and address of the contracting entity; the contract number; award and completion dates; the dollar value; the contract type; the items or services provided; two references, with title and phone number; and any problems encountered and the corrective action taken by the offeror.

(iii) By submitting past performance information, the offeror agrees to permit the Government's representatives to contact the listed references and inquire of the offeror's performance. If more than three contracts are identified, the Government reserves the right to randomly select and limit its review to three contracts. In addition to the information provided, the Government may consider information obtained from other sources when evaluating the offeror's past performance. Offerors will be given the opportunity to discuss negative past performance information obtained from references if the offeror has not had a previous opportunity to comment on that information.

(iv) Offerors with no past performance history (whether internal or external to the Federal government) will not be evaluated favorably nor unfavorably.

(e) PAST PERFORMANCE EVALUATION FACTORS. The Government will use the past performance evaluation factors marked below in addition to cost or price and other evaluation factors specified in the solicitation. Unless indicated otherwise, past performance is significantly more important than other non-price factors. Within the past performance sub factors, ABVS scores/PPIRS assessments (as applicable) will be weighed most heavily. Historical quality history and delivery schedule compliance (not captured in ABVS/PPIRS) will be weighed more heavily than the remaining past performance sub factors. All other non-price evaluation factors specified in this solicitation weigh equally, unless otherwise indicated.

ALTERNATE EVALUATION AND AWARD (MAY 2009)

(e) QUOTED DELIVERY. The Government will evaluate the offeror's compliance with the delivery schedule specified in the solicitation. Quoting a greater number of days delivery than requested under the solicitation will result in the quote being evaluated less favorably than a quote meeting the requested delivery schedule. There will be no evaluation preference for offered delivery which is earlier than the requested delivery schedule.

(f) NON-PRICE FACTORS. Quoted delivery and past performance will be evaluated equally, unless indicated otherwise below.

- ( ) Quoted Delivery is weighed more heavily than past performance.
- ( ) Past Performance is weighed more heavily than quoted delivery.

~~~~~

52.217-9G34 SUPPLY ASSURANCE THROUGH MULTISOURCE CONTRACTING (OCT 2001)

(a) The Government reserves the right to make multiple awards to assure the availability of supplies when first article testing is required if the Contracting Officer determines that the item(s) to be procured is (are) not available in the marketplace for immediate delivery. In such cases, it may be in the Government's best interest to increase the likelihood of supply availability by making awards to both an unproven and a proven source of supply for this item.

(b) When a multisource award basis exists, the Contracting Officer will award the larger portion of the total requirement to the offeror that represents the best value to the Government based on the evaluation scheme included in the solicitation. The proven source shall receive not more than 40 percent of the total requirement. A proven source is defined as an offeror who meets the criteria for first article waiver.

(c) Unless an offeror otherwise qualifies it's offer, unit prices submitted for the total requirement will apply to any partial awards.

(d) To assure supply availability and mission support, should the unproved source not complete the first article test requirements in accordance with its contract, the Government reserves the right to exercise a variable quantity supply assurance option to the proven source, in accordance with DLA Aviation Clause 52.217-9G36, Multisource Contract Supply Assurance Option.

(e) Variable quantity supply assurance option examples: The total requirement is for 100 items. Contractor A, the unproven source, is awarded a contract for 60 items, FAT required. Contractor B, the proven source, is awarded a contract for 40 items, FAT requirements are waived.

(1) Contractor A fails to complete FAT requirements as prescribed in its contract. Upon completion of proper notifications, an option may be issued to contractor B for a quantity up to 150% (40 x 1.50 = 60).

(2) Given the same scenario, the actual quantity needed may have decreased to 75. To achieve this amount, an option may be issued to contractor B for a quantity up to 88% (40 x .88 = 35.2).

52.217-9G36 MULTISOURCE CONTRACTING SUPPLY ASSURANCE OPTION (OCT 2001)

- (a) Any contract awarded under the provisions of 52.217-9G34, Supply Assurance through Multisource

Contracting, shall include the option below. This option is separate and distinct from any other option provision included in this contract.

(b) To insure supply availability and mission support, the Government awarded multiple contracts under the original solicitation for the items specified in this contract. A larger portion of that requirement was awarded to an unproven source requiring first article testing. In the event that unproven source fails to complete the first article testing and provide a conforming product, the Government may increase the quantity of supplies called for in the Schedule of this contract at the unit prices specified. The Government may order any quantity of supplies up to and including 150% of the total quantity specified in the Schedule of this contract. The government may also order any lesser quantity at the unit prices specified.

(c) The Contracting Officer may exercise the option by written notice to the Contractor within the scheduled delivery date set forth in the Schedule of this contract. The Government must provide the Contractor with written notice of its intent to exercise the option more than \_\_\_\_\_ days before the scheduled delivery date. Exercise of the option shall be by separate modification. Exercising this right shall be at no additional cost to either party except as specified herein. Failure to exercise the option shall have no effect on any other terms or conditions of this contract.

(d) Delivery of the added items shall continue at the same rate as the like items called for under the contract, unless the parties otherwise agree.

52.247-9059 F.O.B. Origin, Government Arranged Transportation

F.O.B. ORIGIN, GOVERNMENT ARRANGED TRANSPORTATION (OCT 2013)

- (a) Definitions.
- (1) "Government Arranged Transportation" means the Government is responsible for transportation costs, providing the carrier, and scheduling the shipment pickup contingent upon correct Contractor notification in VSM.
- (2) "Vendor Shipment Module (VSM)," formerly known as the Distribution Planning and Management System (DPMS), is a Defense Logistics Agency (DLA) web-based distribution and transportation system available to DLA contractors for the purpose of obtaining current shipping addresses, two-dimensional bar-coded shipping labels in accordance with Military Standard (MIL-STD) 129P, bills of lading, packing lists, and other shipping documentation. VSM replaces the need for the Contractor to contact the DLA transportation office prior to shipping, when directed in DLA contracts. Refer to 47.305-8-90 and clause 52.247-9011 for VSM policy.
- (b) The Contractor shall-
- (1) Notify the Government when ready to ship material. The Contractor shall use the Vendor Shipment Module (VSM) to notify the Government of the availability of items to ship. The Government can take up to two (2) full business days to schedule the shipment, and pick-up should occur within five(5) business days of the Contractor's notification. The Contractor shall plan for sufficient time for scheduling the shipment and standard ground transportation for its material to arrive at the destination by the CDD.
- (2) Address special accommodations-
- (i) Order specified carrier equipment when requested by the Government; or

|                    |                                                                |                    |

| CONTINUATION SHEET | REFERENCE NO. OF DOCUMENT BEING CONTINUED:<br>SPE4A6-15-Q-0807 | PAGE 7 OF 27 PAGES |
|--------------------|----------------------------------------------------------------|--------------------|

(ii) If not specified, order appropriate carrier equipment not in excess of capacity to accommodate shipment;

(3) Deliver the shipment in good order and condition to the carrier, and load, stow, trim, block, and/or brace carload or truckload shipment (when loaded by the Contractor) on or in the carrier's conveyance as required by carrier rules and regulations.

(c) Responsibility for supplies-

(1) Contractor is responsible for any loss and/or damage to the goods: (i) Occurring before delivery to the carrier;

(ii) Resulting from improper loading, stowing, trimming, blocking, and/or bracing of the shipment, if loaded by the Contractor on or in the carrier's conveyance.

(2) Per FAR 52.246-16 - Responsibility for Supplies, title to the supplies under this contract shall pass to the Government upon formal acceptance, regardless of when or where the Government takes physical possession, unless the contract specifically provides for earlier passage of title. The Contractor shall not be liable for loss or damage to supplies caused by the negligence of officers, agents, or employees of the Government, including but not limited to the Government's designated carrier, acting within the scope of their employment.

(3) Paragraph (c)(2) above shall not apply to supplies that so fail to conform to contract requirements as to give a right of rejection. The risk of loss of or damage remains with the Contractor for all non- conforming supplies received at the first-destination location until cure or acceptance. If instructed by the Contracting Officer, the Contractor shall replace, repair, or correct those supplies promptly at the Contractor's expense, including but not limited to shipping costs to retrieve the non-conforming supplies and costs to ship conforming supplies."

**SECTION D - PACKAGING AND MARKING**

**252.211-7006 RADIO FREQUENCY IDENTIFICATION (SEP 2011) DFARS**

\*\*\*\*

(b)(1) Except as provided in paragraph (b)(2) of this clause, the Contractor shall affix passive RFID tags, at the case- and palletized-unit-load packaging levels, for shipments of items that—

(i) Are in any of the following classes of supply, as defined in DoD 4140.1-R, DoD Supply Chain Materiel Management Regulation, AP1.1.11:

(A) Subclass of Class I – Packaged operational rations.

(B) Class II – Clothing, individual equipment, tentage, organizational tool kits, hand tools, and administrative and housekeeping supplies and equipment.

(C) Class IIIP – Packaged petroleum, lubricants, oils, preservatives, chemicals, and additives.

(D) Class IV – Construction and barrier materials.

(E) Class VI – Personal demand items (non-military sales items).

(F) Subclass of Class VIII – Medical materials (excluding pharmaceuticals, biologicals, and reagents – suppliers should limit the mixing of excluded and non-excluded materials).

(G) Class IX – Repair parts and components including kits, assemblies and subassemblies, repairable and consumable items required for maintenance support of all equipment, excluding medical-peculiar repair parts; and

(ii) Are being shipped to one of the locations listed at <http://www.acq.osd.mil/log/rfid/> or to—

(A) A location outside the contiguous United States when the shipment has been assigned Transportation Priority 1, or to—

(B) The following location(s) deemed necessary by the requiring activity:

| Contract Line, Subline, or Exhibit Line Item Number | Location Name | City | State | DoDAAC |
|-----------------------------------------------------|---------------|------|-------|--------|
|                                                     |               |      |       |        |
|                                                     |               |      |       |        |
|                                                     |               |      |       |        |

(2) The following are excluded from the requirements of paragraph (b)(1) of this clause:

(i) Shipments of bulk commodities.

(ii) Shipments to locations other than Defense Distribution Depots when the contract includes the clause at FAR 52.213-1, Fast Payment Procedures.

(c) The Contractor shall—

(1) Ensure that the data encoded on each passive RFID tag are globally unique (i.e., the tag ID is never repeated across two or more RFID tags and conforms to the requirements in paragraph (d) of this clause;

(2) Use passive tags that are readable; and

(3) Ensure that the passive tag is affixed at the appropriate location on the specific level of packaging, in accordance with MIL-STD-129 (Section 4.9.2) tag placement specifications.

(d) Data syntax and standards. The Contractor shall encode an approved RFID tag using the instructions provided in the EPC™ Tag Data Standards in effect at the time of contract award. The EPC™ Tag Data Standards are available at <http://www.epcglobalinc.org/standards/>.

(1) If the Contractor is an EPCglobal™ subscriber and possesses a unique EPC™ company prefix, the Contractor may use any of the identifiers and encoding instructions described in the most recent EPC™ Tag Data Standards document to encode tags.

(2) If the Contractor chooses to employ the DoD identifier, the Contractor shall use its previously assigned Commercial and Government Entity (CAGE) code and shall encode the tags in accordance with the tag identifier details located at [http://www.acq.osd.mil/log/rfid/tag\\_data.htm](http://www.acq.osd.mil/log/rfid/tag_data.htm). If the Contractor uses a third-party packaging house to encode its tags, the CAGE code of the third-party packaging house is acceptable.

(3) Regardless of the selected encoding scheme, the Contractor with which the Department holds the contract is responsible for ensuring that the tag ID encoded on each passive RFID tag is globally unique, per the requirements in paragraph (c)(1).

(e) Advance shipment notice. The Contractor shall use Wide Area WorkFlow (WAWF), as required by DFARS [252.232-7003](#), Electronic Submission of Payment Requests, to electronically submit advance shipment notice(s) with the RFID tag ID(s) (specified in paragraph

(d) of this clause) in advance of the shipment in accordance with the procedures at <https://wawf.eb.mil/>.

(a) Contiguous United States (CONUS) is defined as being in the 48 contiguous states and the District of Columbia.

(b) This acquisition is being conducted under the First Destination Transportation (FDT) Initiative. Delivery Terms are f.o.b. origin. Inspection and acceptance by the Government will occur at destination unless otherwise specified in the solicitation.

(c) For Offerors whose shipments will originate from outside CONUS (OCONUS), the Offeror's f.o.b. origin price shall include transportation to a CONUS location that the Offeror selects based on cost-effectiveness or other variables at the Offeror's discretion. This location shall be deemed the origin point for purposes of the f.o.b. origin terms and conditions of the solicitation/order/contract. The Offeror shall identify this CONUS location as the pick-up point in the Vendor Shipment Module (VSM) at <https://vsm.distribution.dla.mil>.

## **SECTION H - SPECIAL CONTRACT REQUIREMENTS**

### **52.246-9039 REMOVAL OF GOVERNMENT IDENTIFICATION FROM NON-ACCEPTED SUPPLIES (NOV 2011) DLAD**

(a) The Contractor shall remove or obliterate from a rejected end item and its packing and packaging, any marking, symbol, or other representation that the end item or any part of it has been produced or manufactured for the United States Government. Removal or obliteration shall be accomplished prior to any donation, sale, or disposal in commercial channels. The Contractor, in making disposition in commercial channels of rejected supplies, is responsible for compliance with requirements of the Federal Trade Commission Act (15 United States Code (U.S.C.) 45 et seq.) and the Federal Food, Drug and Cosmetic Act (21 U.S.C. 301 et seq.), as well as other Federal or State laws and regulations promulgated pursuant thereto.

(b) Unless otherwise authorized by the Contracting Officer, the Contractor is responsible for removal or obliteration of government identifications within 72 hours of rejection of nonconforming supplies including supplies manufactured for the Government but not offered or supplies transferred from the Government's account to the cold storage Contractor's account at origin or destination. (For product rejected at destination and returned to the Contractor's plant, the 72 hour period starts with the time of Contractor receipt of returned product). After removal or obliteration is accomplished and prior to disposition, the Contractor must notify the Government inspector.

**52.209-01 QUALIFICATION REQUIREMENTS (FEB 1995) FAR**

(a) Definition. "Qualification requirement," as used in this clause, means a Government requirement for testing or other quality assurance demonstration that must be completed before award.

(b) One or more qualification requirements apply to the supplies or services covered by this contract. For those supplies or services requiring qualification, whether the covered product or service is an end item under this contract or simply a component of an end item, the product, manufacturer, or source must have demonstrated that it meets the standards prescribed for qualification before award of this contract. The product, manufacturer, or source must be qualified at the time of award whether or not the name of the product, manufacturer, or source is actually included on a qualified products list, qualified manufacturers list, or qualified bidders list. Offerors should contact the agency activity designated below to obtain all requirements that they or their products or services, or their subcontractors or their products or services, must satisfy to become qualified and to arrange for an opportunity to demonstrate their abilities to meet the standards specified for qualification.

(to the extent known)

(d) Even though a product or service subject to a qualification requirement is not itself an end item under this contract, the product, manufacturer, or source must nevertheless be qualified at the time of award of this contract. This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate this contract for default or allow performance to continue if adequate consideration is offered and the action is determined to be otherwise in the Government's best interests.

(e) If an offeror, manufacturer, source, product or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Government's interest, award of this contract shall not be delayed to permit an offeror to submit evidence of qualification.

(f) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Similarly, any change in location or ownership of a previously qualified manufacturer or source requires reevaluation of the qualification. The reevaluation must be accomplished before the date of award.

(b) The Contractor shall comply with all applicable laws and regulations regarding export-controlled items, including, but not limited to, the requirement for contractors to register with the Department of State in accordance with the ITAR. The Contractor shall consult with the Department of State regarding any questions relating to compliance with the ITAR and shall consult with the Department of Commerce regarding any questions relating to compliance with the EAR.

(c) The Contractor's responsibility to comply with all applicable laws and regulations regarding export-controlled items exists independent of, and is not established or limited by, the information provided by this clause.

(d) Nothing in the terms of this contract adds, changes, supersedes, or waives any of the requirements of applicable Federal laws, Executive orders, and regulations, including but not limited to—

(1) The Export Administration Act of 1979, as amended (50 U.S.C. App. 2401, *et seq.*);

(2) The Arms Export Control Act (22 U.S.C. 2751, *et seq.*);

(3) The International Emergency Economic Powers Act (50 U.S.C. 1701, *et seq.*);

(4) The Export Administration Regulations (15 CFR Parts 730-774);

(5) The International Traffic in Arms Regulations (22 CFR Parts 120-130); and

(6) Executive Order 13222, as extended.

(e) The Contractor shall include the substance of this clause, including this paragraph (e), in all subcontracts.

## **SECTION K - REPRESENTATIONS, CERTIFICATIONS AND STATEMENTS**

### **52.204-08 ANNUAL REPRESENTATIONS AND CERTIFICATIONS (OCT 2014) FAR**

(a)(1) The North American Industry Classification System (NAICS) code for this acquisition is 334412 [insert NAICS code].

(2) The small business size standard is 500 [insert size standard].

(3) The small business size standard for a concern which submits an offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is 500 employees.

(b)(1) If the clause at 52.204-7, System For Award Management, is included in this solicitation, paragraph (d) of this provision applies.

(2) If the provision at 52.204-7 is not included in this solicitation, and the offeror is currently registered in the System for Award Management (SAM), and has completed the Representations and Certifications section of SAM electronically, the offeror may choose to use paragraph (d) of this provision instead of completing the corresponding individual representations and certification in the solicitation. The offeror shall indicate which option applies by checking one of the following boxes:

☐ (i) Paragraph (d) applies.

☐ (ii) Paragraph (d) does not apply and the offeror has completed the individual representations and certifications in the solicitation.

(c)(1) The following representations or certification s in ORCA are applicable to this solicitation as indicated:

(i) 52.203-2, Certificate of Independent Price Determination. This provision applies to solicitations when a firm-fixed-price contract or fixed-price contract with economic price adjustment is contemplated, unless—

(A) The acquisition is to be made under the simplified acquisition procedures in Part 13;

(B) The solicitation is a request for technical proposals under two-step sealed bidding procedures; or

(C) The solicitation is for utility services for which rates are set by law or regulation.

(ii) 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions. This provision applies to solicitations expected to exceed \$150,000.

(iii) 52.204-3, Taxpayer Identification. This provision applies to solicitations that do not include the clause at 52.204-7, Central Contractor Registration.

(iv) 52.204-5, Women-Owned Business (Other Than Small Business). This provision applies to solicitations that—

(A) Are not set aside for small business concerns;

(B) Exceed the simplified acquisition threshold; and

(C) Are for contracts that will be performed in the United States or its outlying areas.

(v) 52.209-2, Prohibition on Contracting with Inverted Domestic Corporations—Representation. This provision applies to solicitations using funds appropriated in fiscal years 2008, 2009, 2010, or 2012.

(vi) 52.209-5, Certification Regarding Responsibility Matters. This provision applies to solicitations where the contract value is expected to exceed the simplified acquisition threshold.

(vii) 52.214-14, Place of Performance—Sealed Bidding. This provision applies to invitations for bids except those in which the place of performance is specified by the Government.

(viii) 52.215-6, Place of Performance. This provision applies to solicitations unless the place of performance is specified by the Government.

(ix) 52.219-1, Small Business Program Representations (Basic & Alternate I). This provision applies to solicitations when the contract will be performed in the United States or its outlying areas.

(A) The basic provision applies when the solicitations are issued by other than DoD, NASA, and the Coast Guard.

(B) The provision with its Alternate I applies to solicitations issued by DoD, NASA, or the Coast Guard.

(x) 52.219-2, Equal Low Bids. This provision applies to solicitations when contracting by sealed bidding and the contract will be performed in the United States or its outlying areas.

- 52.207-04 ECONOMIC PURCHASE QUANTITY - SUPPLIES (AUG 1987) FAR**
- (a) Offerors are invited to state an opinion on whether the quantity(ies) of supplies on which bids, proposals or quotes are requested in this solicitation is (are) economically advantageous to the Government.

(b) Each offeror who believes that acquisitions in different quantities would be more advantageous is invited to recommend an economic purchase quantity. If different quantities are recommended, a total and a unit price must be quoted for applicable items. An economic purchase quantity is that quantity at which a significant price break occurs. If there are significant price breaks at different quantity points, this information is desired as well.

**52.225-18 PLACE OF MANUFACTURE (SEP 2006) FAR**

(a) Definitions. As used in this clause—

“Manufactured end product” means any end product in Federal Supply Classes (FSC) 1000-9999, except—

- (1) FSC 5510, Lumber and Related Basic Wood Materials;
- (2) Federal Supply Group (FSG) 87, Agricultural Supplies;
- (3) FSG 88, Live Animals;
- (4) FSG 89, Food and Related Consumables;
- (5) FSC 9410, Crude Grades of Plant Materials;
- (6) FSC 9430, Miscellaneous Crude Animal Products, Inedible;
- (7) FSC 9440, Miscellaneous Crude Agricultural and Forestry Products;
- (8) FSC 9610, Ores;
- (9) FSC 9620, Minerals, Natural and Synthetic; and
- (10) FSC 9630, Additive Metal Materials.

“Place of manufacture” means the place where an end product is assembled out of components, or otherwise made or processed from raw materials into the finished product that is to be provided to the Government. If a product is disassembled and reassembled, the place of reassembly is not the place of manufacture.

(b) For statistical purposes only, the offeror shall indicate whether the place of manufacture of the end products it expects to provide in response to this solicitation is predominantly—

(1) ☐ In the United States (Check this box if the total anticipated price of offered end products manufactured in the United States exceeds the total anticipated price of offered end products manufactured outside the United States); or

(2) ☐ Outside the United States.

## SECTION L - INSTRUCTIONS, CONDITIONS AND NOTICES TO OFFERORS

**252.203-7005 REPRESENTATION RELATING TO COMPENSATION OF FORMER DOD OFFICIALS (NOV 2011) DFARS**

**52.204-07 SYSTEM FOR AWARD MANAGEMENT (JUL 2013) FAR**

**52.211-14 NOTICE OF PRIORITY RATING FOR NATIONAL DEFENSE USE, EMERGENCY PREPAREDNESS, AND ENERGY USE PROGRAM (APR 2008) FAR**

Any contract awarded as a result of this solicitation will be ( ) DX rated order; ( X ) DO rated order certified for national defense use under the Defense Priorities and Allocations System (DPAS) (15 CFR 700), and the Contractor will be required to follow all of the requirements of this regulation. [Contracting Officer check appropriate box.]

**52.217-9002 CONDITIONS FOR EVALUATION AND ACCEPTANCE OF OFFERS FOR PART NUMBERED ITEMS (DEC 2011) DLAD**

(a) The product described in the Purchase Order Text (POT) or Procurement Item Description (PID) of this solicitation is that product which the Government has determined to be acceptable. All Offerors shall indicate below, or through an alternative means in an electronic quoting system, whether they are offering an "exact product," an "alternate product" (which includes a "previously reverse-engineered product"), a "superseding part number," or a "previously-approved product;" and shall furnish the data required for whichever is applicable. (To determine which type of product to indicate, offerors must refer to the criteria in subparagraphs (b) - (e) of this provision, respectively.) Any product offered must be either a product cited in the POT or PID; or be physically, mechanically, electrically, and functionally interchangeable with a product cited in the POT or PID, including additional requirements referred to in the POT or PID, if any.

☐ **Exact Product – Applies to CLIN(s):**

☐ **Alternate/Previously Reverse-Engineered Product – Applies to CLIN(s):**

☐ **Superseding Part Number – Applies to CLIN(s):**

☐ **Previously - Approved Product – Applies to CLIN(s) :**

(b) "Exact product."

(1) "Exact product" means a product described by the name of an approved source and its corresponding part number, as currently cited in the POT or PID; modified (if necessary) to conform to any additional requirements set forth in the POT or PID; and manufactured by, or under the direction of, that approved source. If an Offeror indicates that an "exact product" is being offered, the Offeror must meet one of the descriptions in subparagraphs (i)-(iv) below.

(Any Offeror not meeting one of these descriptions is not considered to be offering "exact product;" even though the item may be manufactured in accordance with the drawings and/or specifications of an approved source currently cited in the POT or PID.) For any Offeror other than the manufacturer cited in the POT or PID, the Contracting Officer may request evidence to demonstrate technical acceptability of the supplies offered. Evidence requested will generally include information tracing the supplies back to the original equipment manufacturer or its authorized distributor. At a minimum, evidence must be sufficient to establish the identity of the product and its manufacturing source. The Contracting Officer determines the acceptability and sufficiency of documentation or other evidence, at his or her sole discretion. If an Offeror fails to provide the requested evidence/information or provides information that the Contracting Officer finds unacceptable, its offer may be rejected with out further consideration under this solicitation.

(i) An approved source currently cited in the POT or PID offering its corresponding part number as cited in the POT or PID;

(ii) A dealer/distributor offering the product of an approved source that meets the description in subparagraph (i) above;

(iii) A manufacturer who (A) produces the offered item under the direction of an approved source currently cited in the POT or PID; and (B) has authorization from that approved source to manufacture the item, identify it as that approved source's name and part number, and sell the item directly to the Government. If requested by the Contracting Officer, the Offeror must provide documentation to demonstrate such authorization, or other evidence of technical acceptability such as information that traces the supplies back to the original equipment manufacturer. Such evidence could be documentation obtained directly from the approved source or identification on a Web site maintained by the approved source confirming that the manufacturer is an acceptable source for the item identified by that approved source's name and part number. If evidence cannot be obtained directly from the approved source, this does not necessarily preclude acceptance of the offer, if the Offeror provides adequate documentation or other evidence allowing the Contracting Officer to determine the approved source has oversight of and involvement in the manufacturing process.

(iv) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (iii) above. If requested by the Contracting Officer, the Offeror/Contractor must provide documentation that demonstrates such authorization or other evidence of technical acceptability such as information that traces the supplies back to the original equipment manufacturer or its authorized distributor. Such evidence could be documentation obtained directly from the approved source or identification on a Web site

maintained by the approved source confirming that the item being offered is produced by a manufacturer that is an acceptable source for the item identified by that approved source's name and part number. If evidence cannot be obtained directly from the approved source or manufacturing source, this does not necessarily preclude acceptance of the offer, if the contracting officer can adequately document that the approved source has oversight of and involvement in the manufacturing process by other means.

(2) When the POT or PID identifies the item being acquired as a critical safety item (CSI), offers of exact product will be evaluated in accordance with 52.211-9005.

(c) "Alternate product."

(1) The Offeror must indicate that an "alternate product" is being offered if the Offeror is any one of the following:

(i) An Offeror who (A) manufactures the item for an approved source currently cited in the POT or PID; and (B) does not have authorization from that approved source to manufacture the item, identify it as the approved source part number, and sell the item directly to the Government;

(ii) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (i) above;

(iii) An Offeror of a previously reverse-engineered product that is not currently cited in the POT or PID; or

(iv) Any other Offeror who does not meet the criteria in subparagraphs (b)(1), (d), or (e) of this provision.

(2) If an alternate product is offered, the Offeror shall furnish with its offer legible copies of all drawings, specifications, or other data necessary to clearly describe the characteristics and features of the alternate product being offered. Data submitted shall cover design, materials, performance, function, interchangeability, inspection and/or testing criteria, and other characteristics of the offered product. If the offered product is to be manufactured in accordance with data the Offeror has obtained from elsewhere within the Government, the Offeror shall either furnish the detailed data specified in this paragraph, or supply a description of the data package in its possession; i.e., basic data document and revision, the date the data was obtained and from whom (Government agency/activity). If the Offeror does not furnish the detailed data with its offer, the Contracting Officer will be unable to begin evaluation of the offered product until such time as the detailed data can be obtained from the Government agency/activity possessing the data. If the alternate product is a previously reverse-engineered product, the Offeror shall provide: traceability documentation to establish that the offered item represents the item specified in the POT or PID (i.e., invoice from an approved source or submission of samples having markings of an approved source); number of samples that were examined; the process/logic used; raw data (measurements, lab reports, test results) used to prepare drawings or specifications for the offered item; any additional evidence that indicates the reverse-engineered item will function properly in the end item; and any evidence that life cycle/reliability considerations have been analyzed.

(3) In addition, the Offeror may be required to furnish data describing the "exact product" cited in the POT or PID. The data required from the Offeror depends on the level of technical data describing the exact product, if any, available to the Government. The possible levels of technical data the Government may have and the corresponding data submission requirements for Offerors are identified in subparagraphs (a)-(d) below. For the item(s) being acquired under this solicitation, the level of data in the Government's possession and the corresponding requirements for data submission are identified in the POT or PID; or, if not specified in the POT or PID, are as follows: A [buyer insert (a), (b), (c), or (d), as applicable, if POT or PID does not identify]. (If the level of data in the Government's possession and Offeror requirements for data submission are not identified in either the POT or PID or in this subparagraph (c)(3), then subparagraph (a) below applies.)

(a) No data: This Agency has no data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the POT or PID, sufficient to establish that the Offeror's product is equal to the product cited in the POT or PID.

(b) Adequate proprietary (i.e., limited rights) data: This Agency possesses adequate drawings and/or specifications for the exact product as cited in the POT or PID, but such data are proprietary (i.e., limited rights) and shall be used only for evaluation purposes. The Offeror must furnish the data required in subparagraph (c)(2) of this provision, but is not required to submit data on the exact product.

(c) Inadequate data: This Agency does not have adequate data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the POT or PID, sufficient to establish that the Offeror's product is equal to the product cited in the POT or PID.

(d) Adequate catalog data: This is a commercial off-the-shelf item. Adequate catalog data are available at the contracting office to evaluate alternate offers. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish with its offer a commercially-acceptable cross reference list; or legible copies of all drawings, specifications or other data necessary to clearly describe the characteristics and features of the alternate product being offered, sufficient to establish that the Offeror's product is equal to the product cited in the POT or PID. The Offeror is not required to submit data on the exact product.

(4) Except for indefinite delivery purchase orders (IDPOs), if this solicitation is automated, the Contracting Officer will not evaluate offers of alternate product (which includes offers of previously reverse-engineered product) for the current procurement. Instead, the Offeror shall submit a request to the appropriate location below for evaluation of the alternate product's technical acceptability for future procurements of the same item. The request for evaluation shall cite the National Stock Number (NSN) of the exact product and, as identified in this provision, include the applicable level of technical data on the alternate and exact products. The level of technical data that the Government has available for use to evaluate the acceptability of an alternate product offered, and the corresponding level of technical data that must be furnished with an offer or alternate product, will be identified either in the POT or PID or in paragraph (c)(2) of the provision of 52.217-9002. If the level of data and submission requirements are not identified in either of these locations in the solicitation, then 52.217-9002(c)(3)(a) applies.

(d) "Superseding part number."  
(1) The Offeror must indicate that a "superseding part number" is being offered if the offered item otherwise qualifies as an "exact product," except that the part number cited in the POT or PID has been superseded. The Offeror may be requested to furnish data, or provide confirmation through some other means, sufficient to establish that there are no changes in the configuration of the part. However, if such data are unavailable, the Offeror may be required to furnish technical data as required in paragraph (c) for "alternate products." (If such data indicate there have been changes in the configuration of the part, the offered item must be identified as an "alternate product.")  
(2) For solicitation numbers beginning with SPE or SPM, any data to be furnished with an offer of a "superseding part number" should be mailed to the buyer at the procuring activity address on the solicitation. (Uploading the information with the quotation, or including it in the "Remarks" section, will make the offer a "bid with exception," causing it not to be evaluated.)  
(e) "Previously-approved product."  
(1) If the product offered has previously been furnished to the Government or otherwise previously evaluated and approved, the Offeror shall indicate in the space provided below, or through an alternative means in an electronic quoting system, the contract and/or solicitation number under which the product was furnished or approved.  
**CLIN NR (s) \_\_\_\_\_ have been previously furnished or evaluated and approved under contract/solicitation number \_\_\_\_\_.**  
(2) If the product was furnished or evaluated and approved by a contracting activity different from the one issuing this solicitation, Offerors are advised that the Contracting Officer may not have access to records of another activity or other information sufficient to reasonably determine the offered product's acceptability. Therefore, in order to ensure that adequate data is available for evaluation, Offerors may elect to furnish with their offer the information requested by subparagraph (b) or (c) of this provision, whichever is applicable for the offered product. Offerors are advised that if the additional data is not furnished, the Government may not be able to evaluate the offer. (For solicitation numbers beginning with SPE, the information should be mailed to the buyer at the procuring activity address on the solicitation. Uploading the information with the quotation, or including it in the "Remarks" section, will make the offer a "bid with exception," causing it not to be evaluated.)  
(f) For all types of offers ("exact product," "alternate product," "superseding part number," or "previously-approved product"), Offerors shall provide the Contractor and Government Entity (CAGE) Code of the manufacturer and the part number being offered for each item in the solicitation.  
(g) Failure to furnish adequate data and/or information as prescribed in subparagraph (b), (c), (d) or (e) of this provision (when required for the current procurement) within 10 business days or less, or as otherwise required by the Contracting Officer or elsewhere in this

solicitation, may preclude consideration of the offer. For automated procurements, it is the responsibility of the Offeror when offering a "superseding part number" or a "previously-approved part number" to ensure that supporting documentation arrives at the contracting activity within 2 business days after the data is requested, or the offer may not be considered. The Agency will make every effort to determine, prior to award, the acceptability of the products offered which meet the following dollar savings threshold shown below, which have a reasonable chance to receive an award; generally, the Agency will not evaluate alternate offers not meeting the dollar threshold. The savings potential is based on the cost of evaluation, and is (\$200.00 if only a local technical evaluation is involved, plus an additional \$1,500.00 for each required Engineering Support Activity evaluation). If the time before proposed award does not permit evaluation and delay of award would adversely affect the Government, alternate offers will not be considered for the current procurement. Instead, they will be evaluated for technical acceptability for future procurements of the same item, if adequate data is submitted, as stipulated above. When an alternate offer will not be considered for the current procurement, the Contracting Officer may request that the Offeror, at its discretion, provide a sample product for testing and evaluation in addition to the data required in this provision. Although not mandatory, Offerors are encouraged to provide the sample. This may facilitate the post-award evaluation and, if the alternate product is approved, increase the likelihood of its being added to the POT or PID in time for the next acquisition of the item. The Offeror shall not submit a sample product until requested to do so. The testing of the sample product will be done at a testing facility; therefore, the shipping instructions will be provided with the request. Unless otherwise specified in the solicitation, samples shall be submitted at no expense to the Government, may be damaged or destroyed during testing without liability from the Government to the submitter, and consequently may not be returned to the offeror; samples that are not damaged or destroyed will be returned only at the Offeror's request and expense. For alternate offers not evaluated, the Offeror's complete technical data package will be returned.

(h) If Offerors desire to restrict the Government's use of data submitted for evaluation, the data must bear the appropriate legends as prescribed by FAR 52.215-1(e). In the event an award is made to an Offeror submitting data without the appropriate legend, the Government will have unlimited rights to its use as defined in DFARS 252.227-7013.

(i) It is the Government that determines if the documentation or other evidence furnished by an Offeror is adequate to satisfy the requirements in this provision. The Contracting Officer may at any time, pre-award or post-award, request evidence of the technical acceptability of the supplies offered in response to this solicitation. At a minimum, evidence must be sufficient to establish the identity of the product and its manufacturing source. The Contracting Officer determines the acceptability and sufficiency of documentation or other evidence, at his or her sole discretion. If the Contracting Officer requests evidence from a Contractor who received an award resulting from this solicitation and the Contracting Officer subsequently finds the evidence to be unacceptable, or if the Contractor fails to provide the requested evidence, the award may be cancelled.
