MICRO-PURCHASE QUOTES MAY BE AWARDED PRIOR TO RETURN DATE.

ALL QUOTES MUST BE SUBMITTED VIA THE DLA INTERNET BID BOARD SYSTEM (DIBBS) AT https://www.dibbs.bsm.dla.mil.

All offerors are requested to respond to this solicitation with quantity pricing ranging from 50% (rounding up) to 300% of the quantity stated in the solicitation. The actual quantity awarded will be based on current requirements at time of award. For example, if the solicited quantity is seven units, the Government requests quantity pricing between four and twenty one units.

52.246-9G36 CONFIGURATION CONTROL (JUN 2003)

NOTICE TO CONTRACTORS: The requirements of this clause are identified to MIL-STD-973. DLA Aviation will continue to reference MIL-STD-973 in solicitations and contracts until implementation of DLA configuration control requirements. The full text of MIL-STD-973 is available at:

http://www.aviation.dla.mil/userweb/dscrbat/gaps.htm

- (a) When configuration management control is cited in the Procurement Item Description, the furnished item(s) shall conform to the approved configuration requirements/revision specified unless a variation is processed and approved as provided for at (b) below.
- (b) Variations shall be identified and approval obtained in accordance with MIL-STD-973 dated 17 APR 92, with Interim Notice 3 dated 12 JAN 95 as follows:
- (1) Process an Engineering Change Proposal for any changes to the approved configuration in accordance with Paragraph 5.4.2 and Subparagraphs thereto and APPENDIX D, except that Subparagraphs 5.4.2.3.1, 5.4.2.3.5.1, and 5.4.2.3.5.2 do not apply.
- (2) Process requests for deviation from the approved configuration in accordance with Paragraph 5.4.3 and Subparagraphs thereto and APPENDIX E.
- (3) Process requests for waiver from the approved configuration in accordance with Paragraph 5.4.4 and Subparagraphs thereto and APPENDIX E.
- (4) Process requests for parts substitution from the approved configuration in accordance with Paragraph 5.4.5 and Subparagraphs thereto.
- (5) Process Specification Change Notices in accordance with Paragraph 5.4.6 and Subparagraphs thereto and APPENDIX F.

CONTINUATION SHEET

REFERENCE NO. OF DOCUMENT BEING CONTINUED: SPE4A5-15-Q-0592

PAGE 3 OF 24 PAGES

- (6) Process Notices of Revision (NORS) in accordance with Paragraph 5.4.7 and APPENDIX $\mbox{G}.$
- (7) Process configuration control (short form procedure) in accordance with Paragraph 5.4.8 and Subparagraphs thereto and APPENDIX D.

13-1A-9G NOTIFICATION OF REJECTION OF UNILATERAL AWARD (MAR 2001)

Unless this is a bilateral award, notice of rejection as described herein is required. The Government's offer to purchase, as evidenced by this order, is made on the basis of your quotation. Although you are not legally obligated

to perform on a unilateral purchase order, you should promptly notify the DLA Aviation contract administrator in writing if you do not intend to perform this order by the specified delivery date. Prompt notification means as soon after receiving notice of award as practicable given the circumstances.

FAILURE TO PROVIDE PROMPT NOTICE WILL ADVERSELY AFFECT YOUR PAST PERFORMANCE AUTOMATED BEST VALUE SYSTEM SCORE IF THIS ORDER IS LATER CANCELLED AT OTHER THAN THE GOVERNMENT'S REQUEST.

52.211-9G73 PACKAGING AND MARKING AND REQUIREMENTS (MAR 2004)

- (a) Unless stated otherwise, commercial packaging in accordance with ASTM-D-3951 is required for CONUS shipments from the contractor directly to the customer. Commercial packaging and marking is not sufficient for vendor shipments requiring movement through the Defense Transportation System (also referred to as the Military Distribution System or DLA Depot) as the shipment could ultimately be moved via Military Air.
- (b) Higher level packaging in accordance with MIL-STD-2073 is mandatory for all shipments that meet the below criteria:
- Movement through the Defense Transportation System including shipments to a Military Distribution facility or depot.
- OCONUS shipments
- FMS shipments
- · Hazardous material, as cited in the AID or in the Quality Requirements Matrix.
- (c) Materials not considered as HAZMAT for CONUS or OCONUS commercial air shipments may be considered HAZMAT for MILAIR shipments OCONUS. As such, contractors/shippers shall ensure that material meeting HAZMAT definitions in DLAI 4145.3, Preparing Hazardous Materials for Military Air Shipment, is packaged in accordance with that instruction when the consignee is OCONUS and the shipment will be moved through the Defense Transportation System.
- (d) All items shall be marked in accordance with MIL-STD-129P. Hazardous items and shelf life items, as cited in the AID or in the Quality Requirements Matrix, shall be marked in accordance with MIL-STD-129P and the appropriate clauses cited in the appendix to the matrix and the contract. The contractor is required to package material in accordance with Quantity Unit Pack (QUP), specified in MIL-STD-2073 and the Unit of Issue (UI), specified in each delivery order. A packing slip shall be located in a plastic pouch on the outside of the package. For HAZMAT destined OCONUS, a hard copy of the Material Safety Data Sheet (MSDS) must also be included.
 - (e) In the event of deployments, this clause may be invoked when shipments originally destined for a

CONTINUATION SHEET

REFERENCE NO. OF DOCUMENT BEING CONTINUED: SPE4A5-15-Q-0592

PAGE 4 OF 24 PAGES

CONUS location are diverted to OCONUS destinations thereby necessitating movement of the material through the Defense Transportation System. In such an event, contractors will be notified by the Contracting Officer and an equitable adjustment will be made in the contract price as deemed appropriate.

NOTE: Applicable to negotiated solicitations. Offers that do not comply with the packaging and marking requirements as specified in Section D of this solicitation may be subject to rejection as being technically unacceptable.

52.232.9010 Accelerated Payments to Small Business.

ACCELERATED PAYMENTS TO SMALL BUSINESS (JUN 2012)

In order to implement Department of Defense policy providing for accelerated payments to small businesses, the Government may issue awards that reflect payment terms of net 30 days, regardless of the payment terms offered by the vendor. This is required so that the Government can make accelerated payment to small businesses, which it intends to do in accordance with Defense Federal Acquisition Regulation Supplement (DFARS) 232.906(a)(ii), on contracts or orders for which fast pay procedures do not apply as soon as practicable following receipt of a proper invoice and completion of receipt and acceptance documentation, as required for payment by Federal Acquisition Regulation (FAR) 32.905. The Government's intent to make accelerated payment does not alter the rules for imposition of prompt payment interest as set out in the contract or order and FAR Subpart 32.9.

11-20-9G DLA AVIATION NOTE TO 52.211-9000 GOVERNMENT SURPLUS MATERIAL (JUL 2002)

For electronic quotes, if the information requested by Clause 52.211-9000 (Section I) cannot be submitted with your offer, it must be submitted off-line to the contracting officer prior to the solicitation closing date.

Awards citing origin inspection that authorize the furnishing of surplus material will contain a Quality Assurance Provision (QAP) S01 in lieu of the QAP (if any) specified in this solicitation. If destination inspection will apply to the award, the QAP cited in the purchase order text will apply.

A copy of surplus QAP S01 is available on the DLA Aviation Acquisition Reference List, Section 2 http://www.aviation.dla.mil/userweb/dscrbat/qaps.htm

52.215-9G06 EVALUATION AND AWARD (MAY 2011)

- (a) AWARD. The Government intends to evaluate proposals and, if necessary, conduct discussions with all responsible offerors within the competitive range. The award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and represents the best value to the Government. Therefore, award may be made to other than the lowest priced or the highest technically rated offer.
- (b) RELATIVE IMPORTANCE AND TRADE-OFFS. The Government will base the determination of best value on a comparative assessment of the offerors' prices, past performance, and the other evaluation factors identified

CON	ITINII	MITAL	M QH	IEET

REFERENCE NO. OF DOCUMENT BEING CONTINUED: SPE4A5-15-Q-0592

PAGE 5 OF 24 PAGES

elsewhere in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors, when combined are:

- [] significantly more important than cost or price. As other evaluation factors become more equal, the evaluated cost or price becomes more important.
- [X] approximately equal to cost or price; or
- [] significantly less important than cost or price. As the evaluated cost/price becomes more equal, relative importance of all other evaluation factors becomes more significant.

The final award decision may involve a trade-off among cost or price and the non-price factors. Factors that may be considered in the trade-off process include, but are not limited to:

Item criticality and weapons system application Current inventory status Historical delivery or quality problems Concerns over limited supply sources and industrial base Benefits from obtaining new sources

- (c) COST OR PRICE. The Government will evaluate the offered cost or price. The Government will add any other cost or price evaluation factors identified elsewhere in this solicitation (e.g. Buy American Act or FOB Origin transportation costs) to arrive at the offeror's evaluated cost or price. The evaluated cost or price will be used in conjunction with the other non-price factors to determine the best value to the Government.
- (d) PAST PERFORMANCE. Past performance includes, but is not limited to, the offeror's record of conforming to contract requirements and standards of good workmanship; adherence to contract schedules, including the

administrative aspects of performance; the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the offeror's business-like concern for the customer's interest.

- (i) The Automated Best Value System (ABVS) or the Past Performance Information Retrieval System Statistical Reporting (PPIRS-SR), as applicable, will be used to evaluate quality and past performance on DLA awards (see 52.215-9022).
- (ii) In addition, offerors may submit with their offer information on past and current Federal (non-DLA Aviation), State and local government and private sector contracts performed by the offeror at the proposed performance location within the last three years that are similar in nature to this acquisition. Offerors electing to submit this data must furnish at least the following information: name and address of the contracting entity; the contract number; award and completion dates; the dollar value; the contract type; the items or services provided; two references, with title and phone number; and any problems encountered and the corrective action taken by the offeror.
- (iii) By submitting past performance information, the offeror agrees to permit the Government's representatives to contact the listed references and inquire of the offeror's performance. If more than three contracts are identified, the Government reserves the right to randomly select and limit its review to three contracts. In addition to the information provided, the Government may consider information obtained from

(.()IN	I IIVII	IAII	UNIV	>H	1

REFERENCE NO. OF DOCUMENT BEING CONTINUED: SPE4A5-15-Q-0592

PAGE 6 OF 24 PAGES

other sources when evaluating the offeror's past performance. Offerors will be given the opportunity to discuss negative past performance information obtained from references if the offeror has not had a previous opportunity to comment on that information.

- (iv) Offerors with no past performance history (whether internal or external to the Federal government) will not be evaluated favorably nor unfavorably.
- (e) PAST PERFORMANCE EVALUATION FACTORS. The Government will use the past performance evaluation factors marked below in addition to cost or price and other evaluation factors specified in the solicitation. Unless indicated otherwise, past performance is significantly more important than other non-price factors. Within the past performance subfactors, ABVS scores/PPIRS assessments (as applicable) will be weighed most heavily. Historical quality history and delivery schedule compliance (not captured in ABVS/PPIRS) will be weighed more heavily than the remaining past performance subfactors. All other non-price evaluation factors specified in this solicitation weigh equally, unless otherwise indicated.
 - [] ABVS Score/PPIRS-SR Assessments (52.215-9022)
 - [X] PPIRS-RC Assessments
 - [] Historical Quality (not captured in ABVS/PPIRS)
 - [] Historical Delivery Schedule Compliance (not captured in ABVS/PPIRS)
 - [] ABILITYONE (52.215-9005)
 - [] Mentoring Business Agreements (MBA) (52.219-9003)
 - [] Socioeconomic Support (52.215-9003)
 - [] Other (specify):

52.215-9G06 ALT I EVALUATION AND AWARD (MAY 2009)

- (e) QUOTED DELIVERY. The Government will evaluate the offeror's compliance with the delivery schedule specified in the solicitation. Quoting a greater number of days delivery than requested under the solicitation will result in the quote being evaluated less favorably than a quote meeting the requested delivery schedule. There will be no evaluation preference for offered delivery which is earlier than the requested delivery schedule.
- (f) NON-PRICE FACTORS. Quoted delivery and past performance will be evaluated equally, unless indicated otherwise below.
- () Quoted Delivery is weighed more heavily than past performance.
- () Past Performance is weighed more heavily than quoted delivery.

SECTION D - PACKAGING AND MARKING

252.211-7006 RADIO FREQUENCY IDENTIFICATION (SEP 2011) DFARS

- (b)(1) Except as provided in paragraph (b)(2) of this clause, the Contractor shall affix passive RFID tags, at the case- and palletized-unit-load packaging levels, for shipments of items that—
- (i) Are in any of the following classes of supply, as defined in DoD 4140.1-R, DoD Supply Chain Materiel Management Regulation, AP1.1.11:
- (A) Subclass of Class I Packaged operational rations.
- (B) Class II Clothing, individual equipment, tentage, organizational tool kits, hand tools, and administrative and housekeeping supplies and equipment.
- (C) Class IIIP Packaged petroleum, lubricants, oils, preservatives, chemicals, and additives.
- (D) Class IV Construction and barrier materials.
- (E) Class VI Personal demand items (non-military sales items).
- (F) Subclass of Class VIII Medical materials (excluding pharmaceuticals, biologicals, and reagents suppliers should limit the mixing of excluded and non-excluded materials).
- (G) Class IX Repair parts and components including kits, assemblies and subassemblies, reparable and consumable items required for maintenance support of all equipment, excluding medical-peculiar repair parts; and
- (ii) Are being shipped to one of the locations listed at http://www.acq.osd.mil/log/rfid/ or to-
- (A) A location outside the contiguous United States when the shipment has been assigned Transportation Priority 1, or to—
- (B) The following location(s) deemed necessary by the requiring activity:

Contract Line, Subline, or Exhibit Line Item Number	Location Name	City	State	DoDAAC

- (2) The following are excluded from the requirements of paragraph (b)(1) of this clause:
- (i) Shipments of bulk commodities.
- (ii) Shipments to locations other than Defense Distribution Depots when the contract includes the clause at FAR 52.213-1, Fast Payment Procedures.
- (c) The Contractor shall—
- (1) Ensure that the data encoded on each passive RFID tag are globally unique (i.e., the tag ID is never repeated across two or more RFID tags and conforms to the requirements in paragraph (d) of this clause;
- (2) Use passive tags that are readable; and
- (3) Ensure that the passive tag is affixed at the appropriate location on the specific level of packaging, in accordance with MIL-STD-129 (Section 4.9.2) tag placement specifications.
- (d) Data syntax and standards. The Contractor shall encode an approved RFID tag using the instructions provided in the EPC™ Tag Data Standards in effect at the time of contract award. The EPC™ Tag Data Standards are available at http://www.epcqlobalinc.org/standards/.
- (1) If the Contractor is an EPCglobal™ subscriber and possesses a unique EPC™ company prefix, the Contractor may use any of the identifiers and encoding instructions described in the most recent EPC™ Tag Data Standards document to encode tags.
- (2) If the Contractor chooses to employ the DoD identifier, the Contractor shall use its previously assigned Commercial and Government Entity (CAGE) code and shall encode the tags in accordance with the tag identifier details located at http://www.acq.osd.mil/log/rfid/tag_data.htm. If the Contractor uses a third-party packaging house to encode its tags, the CAGE code of the third-party packaging house is acceptable.
- (3) Regardless of the selected encoding scheme, the Contractor with which the Department holds the contract is responsible for ensuring that the tag ID encoded on each passive RFID tag is globally unique, per the requirements in paragraph (c)(1).
- (e) Advance shipment notice. The Contractor shall use Wide Area WorkFlow (WAWF), as required by DFARS <u>252.232-7003</u>, Electronic Submission of Payment Requests, to electronically submit advance shipment notice(s) with the RFID tag ID(s) (specified in paragraph (d) of this clause) in advance of the shipment in accordance with the procedures at https://wawf.eb.mil/.

52.247-9035 SHIPPING INSTRUCTIONS (DOMESTIC) (NOV 2011) DLAD

Mail instructions (not applicable to Army Post Office (APO) or Fleet Post Office (FPO) addresses):

- (a) Route domestic shipments within mail limitations as follows based on the transportation priority (TP) reflected in the "mark for" data with each contract line item number (CLIN). Commercial small parcel carrier (e.g., United Parcel Service (UPS) or Federal Express) is an acceptable mode of shipment to domestic addresses.
- (1) Ship all NMCS, 777, and 999, regardless of TP or distance, by commercial small parcel carrier.
- (2) Ship TP 1 and 2 (IPD 01-08) by priority mail or most economical comparable mode.
- (3) Ship TP 3 (IPD 09-15) and all stock locations (not TP coded) by surface parcel post (Fourth Class) or most economical comparable mode.
- (4) The cost of parcel post insurance will not be paid by the Government.
- (b) Freight instructions (domestic).
- (1) Ship all NMCS, 777, and 999, regardless of TP or distance by commercial small parcel carrier.
- (2) For TP 1 and 2 (IPD 01-08) weighing under 250 pounds, use air freight and specify air on the invoice. Exceptions: if destination is within 600 miles of origin, use regular surface transportation.
- (3) For all other freight shipments, contact the cognizant transportation officer for delivery and carrier routing instructions.
- (4) Advance telephonic notice of delivery must be given by the carrier to the consignee's transportation officer (transport control/prelodge desk) at least 24 hours prior to delivery of freight shipments (other than small parcels). Bills of lading must be annotated to reflect this requirement. Addresses for direct shipments within the contiguous United States (CONUS) and Canada are shown "in the clear" with each individual CLIN on schedule continuation sheet(s) in each order. Addresses for stock shipments are shown with each individual CLIN on schedule continuation sheet(s) in each order. (End of Clause)

52.247-9038 SHIPPING INSTRUCTION FOR DLA DIRECT ACQUISITIONS (NOV 2011) DLAD

SECTION H - SPECIAL CONTRACT REQUIREMENTS

52.246-9039 REMOVAL OF GOVERNMENT IDENTIFICATION FROM NON-ACCEPTED SUPPLIES (NOV 2011) DLAD

- (a) The Contractor shall remove or obliterate from a rejected end item and its packing and packaging, any marking, symbol, or other representation that the end item or any part of it has been produced or manufactured for the United States Government. Removal or obliteration shall be accomplished prior to any donation, sale, or disposal in commercial channels. The Contractor, in making disposition in commercial channels of rejected supplies, is responsible for compliance with requirements of the Federal Trade Commission Act (15 United States Code (U.S.C.) 45 et seq.) and the Federal Food, Drug and Cosmetic Act (21 U.S.C. 301 et seq.), as well as other Federal or State laws and regulations promulgated pursuant thereto.
- (b) Unless otherwise authorized by the Contracting Officer, the Contractor is responsible for removal or obliteration of government identifications within 72 hours of rejection of nonconforming supplies including supplies manufactured for the Government but not offered or supplies transferred from the Government's account to the cold storage Contractor's account at origin or destination. (For product rejected at destination and returned to the Contractor's plant, the 72 hour period starts with the time of Contractor receipt of returned product). After removal or obliteration is accomplished and prior to disposition, the Contractor must notify the Government inspector.

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es): http://www.dla.mil/Acquisition and http://farsite.hill.af.mil/. (End of Clause)

52.253-01 COMPUTER GENERATED FORMS (JAN 1991) FAR

252.225-7048 EXPORT CONTROLLED ITEMS (JUN 2013) DFARS

- (a) Definition. "Export-controlled items," as used in this clause, means items subject to the Export Administration Regulations (EAR) (15 CFR Parts 730-774) or the International Traffic in Arms Regulations (ITAR) (22 CFR Parts 120-130). The term includes:
 - (1) "Defense items," defined in the Arms Export Control Act, 22 U.S.C. 2778(j)(4)(A), as defense articles, defense services, and related technical data, and further defined in the ITAR, 22 CFR Part 120.
 - (2) "Items," defined in the EAR as "commodities", "software", and "technology," terms that are also defined in the EAR, 15 CFR 772.1.
- (b) The Contractor shall comply with all applicable laws and regulations regarding export-controlled items, including, but not limited to, the requirement for contractors to register with the Department of State in accordance with the ITAR. The Contractor shall consult with the Department of State regarding any questions relating to compliance with the ITAR and shall consult with the Department of Commerce regarding any questions relating to compliance with the EAR.
- (c) The Contractor's responsibility to comply with all applicable laws and regulations regarding export-controlled items exists independent of, and is not established or limited by, the information provided by this clause.
- (d) Nothing in the terms of this contract adds, changes, supersedes, or waives any of the requirements of applicable Federal laws, Executive orders, and regulations, including but not limited to—
 - (1) The Export Administration Act of 1979, as amended (50 U.S.C. App. 2401, et seq.);
 - (2) The Arms Export Control Act (22 U.S.C. 2751, et seq.);
 - (3) The International Emergency Economic Powers Act (50 U.S.C. 1701, et seq.);
 - (4) The Export Administration Regulations (15 CFR Parts 730-774);
 - (5) The International Traffic in Arms Regulations (22 CFR Parts 120-130); and
 - (6) Executive Order 13222, as extended.
- (e) The Contractor shall include the substance of this clause, including this paragraph (e), in all subcontracts. (End of clause)

SECTION K - REPRESENTATIONS, CERTIFICATIONS AND STATEMENTS

52.204-08 ANNUAL REPRESENTATIONS AND CERTIFICATIONS (OCT 2014) FAR

- (a)(1) The North American Industry Classification System (NAICS) code for this acquisition is [insert NAICS code].
- (2) The small business size standard is [insert size standard].
- (3) The small business size standard for a concern which submits an offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is 500 employees.
- (b)(1) If the clause at 52.204-7, System For Award Management, is included in this solicitation, paragraph (d) of this provision applies.
- (2) If the provision at 52.204-7 is not included in this solicitation, and the offeror is currently registered in the System for Award Management (SAM), and has completed the Representations and Certfications section of SAM electronically, the offeror may choose to use paragraph (d) of this provision instead of completing the corresponding individual representations and certification in the solicitation. The offeror shall indicate which option applies by checking one of the following boxes:
- [] (i) Paragraph (d) applies.
- [] (ii) Paragraph (d) does not apply and the offeror has completed the individual representations and certifications in the solicitation.
- (c)(1) The following representations or certification s in ORCA are applicable to this solicitation as indicated:
- (i) 52.203-2, Certificate of Independent Price Determination. This provision applies to solicitations when a firm-fixed-price contract or fixed-price contract with economic price adjustment is contemplated, unless—
- (A) The acquisition is to be made under the simplified acquisition procedures in Part 13;
- (B) The solicitation is a request for technical proposals under two-step sealed bidding procedures; or
- (C) The solicitation is for utility services for which rates are set by law or regulation.
- (ii) 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions. This provision applies to solicitations expected to exceed \$150,000.

(b) "Exact product."

(Any Offeror not meeting one of these descriptions is not considered to be offering "exact product;" even though the item may be manufactured in accordance with the drawings and/or specifications of an approved source currently cited in the POT or PID.) For any Offeror other than the manufacturer cited in the POT or PID, the Contracting Officer may request evidence to demonstrate technical acceptability of the supplies offered. Evidence requested will generally include information tracing the supplies back to the original

^{(1) &}quot;Exact product" means a product described by the name of an approved source and its corresponding part number, as currently cited in the POT or PID; modified (if necessary) to conform to any additional requirements set forth in the POT or PID; and manufactured by, or under the direction of, that approved source. If an Offeror indicates that an "exact product" is being offered, the Offeror must meet one of the descriptions in subparagraphs (i)-(iv) below.

CONTINUATION SHEET	REFERENCE NO. OF DOCUMENT BEING CONTINUED:	PAGE 21 OF 24 PAGES
	SPE4A5-15-Q-0592	

equipment manufacturer or its authorized distributor. At a minimum, evidence must be sufficient to establish the identity of the product and its manufacturing source. The Contracting Officer determines the acceptability and sufficiency of documentation or other evidence, at his or her sole discretion. If an Offeror fails to provide the requested evidence/information or provides information that the Contracting Officer finds unacceptable, its offer may be rejected with out further consideration under this solicitation.

- (i) An approved source currently cited in the POT or PID offering its corresponding part number as cited in the POT or PID:
- (ii) A dealer/distributor offering the product of an approved source that meets the description in subparagraph (i) above:
- (iii) A manufacturer who (A) produces the offered item under the direction of an approved source currently cited in the POT or PID; and
- (B) has authorization from that approved source to manufacture the item, identify it as that approved source's name and part number, and sell the item directly to the Government. If requested by the Contracting Officer, the Offeror must provide documentation to demonstrate such authorization, or other evidence of technical acceptability such as information that traces the supplies back to the original equipment manufacturer. Such evidence could be documentation obtained directly from the approved source or identification on a Web site maintained by the approved source confirming that the manufacturer is an acceptable source for the item identified by that approved source's name and part number. If evidence cannot be obtained directly from the approved source, this does not necessarily preclude acceptance of the offer, if the Offeror provides adequate documentation or other evidence allowing the Contracting Officer to determine the approved source has oversight of and involvement in the manufacturing process.
- (iv) A dealer/distributor offering the product of a manufacturer that meets the descript ion in subparagraph (iii) above. If requested by the Contracting Officer, the Offeror/Contractor must provide documentation that demonstrates such authorization or other evidence of technical acceptability such as information that traces the supplies back to the original equipment manufacturer or its authorized distributor. Such evidence could be documentation obtained directly from the approved source or identification on a Web site maintained by the approved source confirming that the item being offered is produced by a manufacturer that is an acceptable source for the item identified by that approved source's name and part number. If evidence cannot be obtained directly from the approved source or manufacturing source, this does not necessarily preclude acceptance of the offer, if the contracting officer can adequately document that the approved source has oversight of and involvement in the manufacturing process by other means.
- (2) When the POT or PID identifies the item being acquired as a critical safety item (CSI), offers of exact product will be evaluated in accordance with 52.211-9005.
- (c) "Alternate product."
- (1) The Offeror must indicate that an "alternate product" is being offered if the Offeror is any one of the following:
- (i) An Offeror who (A) manufactures the item for an approved source currently cited in the POT or PID; and (B) does not have authorization from that approved source to manufacture the item, identify it as the approved source part number, and sell the item directly to the Government;
- (ii) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (i) above;
- (iii) An Offeror of a previously reverse-engineered product that is not currently cited in the POT or PID; or
- (iv) Any other Offeror who does not meet the criteria in subparagraphs (b)(1), (d), or (e) of this provision.
- (2) If an alternate product is offered, the Offeror shall furnish with its offer legible copies of all drawings, specifications, or other data necessary to clearly describe the characteristics and features of the alternate product being offered. Data submitted shall cover design, materials, performance, function, interchangeability, inspection and/or testing criteria, and other characteristics of the offered product. If the offered product is to be manufactured in accordance with data the Offeror has obtained from elsewhere within the Government, the Offeror shall either furnish the detailed data specified in this paragraph, or supply a description of the data package in its possession; i.e., basic data document and revision, the date the data was obtained and from whom (Government agency/activity). If the Offeror does not furnish the detailed data with its offer, the Contracting Officer will be unable to begin evaluation of the offered product until such time as the detailed data can be obtained from the Government agency/activity possessing the data. If the alternate product is a previously reverse-engineered product, the Offeror shall provide: traceability documentation to establish that the offered item represents the item specified in the POT or PID (i.e., invoice from an approved source or submission of samples having markings of an approved source); number of samples that were examined; the process/logic used; raw data (measurements, lab reports, test results) used to prepare drawings or specifications for the offered item; any additional evidence that indicates the reverse-engineered item will function properly in the end item; and any evidence that life cycle/reliability considerations have been analyzed.
- (3) In addition, the Offeror may be required to furnish data describing the "exact product" cited in the POT or PID. The data required from the Offeror depends on the level of technical data describing the exact product, if any, available to the Government. The possible levels of technical data the Government may have and the corresponding data submission requirements for Offerors are identified in subparagraphs (a)-(d) below. For the item(s) being acquired under this solicitation, the level of data in the Government's possession and the corresponding requirements for data submission are identified in the POT or PID; or, if not specified in the POT or PID, are as follows: [buyer insert (a), (b), (c), or (d), as applicable, if POT or PID does not identify]. (If the level of data in the Government's possession and Offeror requirements for data submission are not identified in either the POT or PID or in this subparagraph (c)(3), then subparagraph (a) below applies.)
- (a) No data: This Agency has no data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the POT or PID, sufficient to establish that the Offeror's product is equal to the product cited in the POT or PID.
- (b) Adequate proprietary (i.e., limited rights) data: This Agency possesses adequate drawings and/or specifications for the exact product as cited in the POT or PID, but such data are proprietary (i.e., limited rights) and shall be used only for evaluation purposes. The Offeror must furnish the data required in subparagraph (c)(2) of this provision, but is not required to submit data on the exact product.

- (c) Inadequate data: This Agency does not have adequate data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the POT or PID, sufficient to establish that the Offeror's product is equal to the product cited in the POT or PID.
- (d) Adequate catalog data: This is a commercial off-the-shelf item. Adequate catalog data are available at the contracting office to evaluate alternate offers. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish with its offer a commercially-acceptable cross reference list; or legible copies of all drawings, specifications or other data necessary to clearly describe the characteristics and features of the alternate product being offered, sufficient to establish that the Offeror's product is equal to the product cited in the POT or PID. The Offeror is not required to submit data on the exact product.
- (4) Except for indefinite delivery purchase orders (IDPOs), if this solicitation is automated, the Contracting Officer will not evaluate offers of alternate product (which includes offers of previously reverse-engineered product) for the current procurement. Instead, the Offeror shall submit a request to the appropriate location below for evaluation of the alternate product's technical acceptability for future procurements of the same item. The request for evaluation shall cite the National Stock Number (NSN) of the ex act product and, as identified in this provision, include the applicable level of technical data on the alternate and exact products. The level of technical data that the Government has available for use to evaluate the acceptability of an alternate product offered, and the corresponding level of technical data that must be furnished with an offer or alternate product, will be identified either in the POT or PID or in paragraph (c)(2) of the provision of 52.217-9002. If the level of data and submission requirements are not identified in either of these locations in the solicitation, then 52.217-9002(c)(3)(a) applies.
- (i) For solicitation numbers beginning with SPM7 or SPE7 and containing "T" in the ninth position of the PIIN:

Philadelphia, PA 19111-5098

- (d) "Superseding part number."
- (1) The Offeror must indicate that a "superseding part number" is being offered if the offered item otherwise qualifies as an "exact product," except that the part number cited in the POT or PID has been superseded. The Offeror may be requested to furnish data, or provide confirmation through some other means, sufficient to establish that there are no changes in the configuration of the part. However, if such data are unavailable, the Offeror may be required to furnish technical data as required in paragraph (c) for "alternate products." (If such data indicate there have been changes in the configuration of the part, the offered item must be identified as an "alternate product.")
- (2) For solicitation numbers beginning with SPE or SPM, any data to be furnished with an offer of a "superseding part number" should be mailed to the buyer at the procuring activity address on the solicitation. (Uploading the information with the quotation, or including it in the "Remarks" section, will make the offer a "bid with exception," causing it not to be evaluated.)

(e) "Previously-approved product."
